

# Women in Leadership Governance Course

The Women in Leadership Governance Course provides support to women currently on boards and to those women who are seeking directorship opportunities on State Sport Associations, recreation organisations and industry representative boards. The program provides women with the confidence to take the first steps, or if currently on a board to develop their governance knowledge further. Workshop sessions, individual mentoring, resources and professional development opportunities are provided.

Participants will also receive 1 hour of mentoring from [Lianne Cretney-Barnes](#).

Lianne is known as a well-connected business leader and strategic thinker.

The WA Women in Leadership Governance Course was a fantastic training opportunity that provided an excellent overview of the principles of Governance. I am seeking a Board position, as this training course, was excellent in building my skills and knowledge around the roles and responsibilities of a board. It was great to work with Lianne and a wonderful group of women, who made the learning environment open and supportive.

**Brooke Koenig – Tennis West**

I found the course extremely beneficial for my role on an industry body board as well as my role in local government. I felt the initial strategic planning aspect of the course was particularly valuable to identify the gaps in both my knowledge and also where my industry body could progress. I would be happy to recommend the course to colleagues as well as those new to a role on an industry body or SSA board.

**Grace Darby – LIWA Aquatics**

**Four week course with 100% attendance required at all four workshops.**

All workshops will be delivered at DLGSC at 246 Vincent Street Leederville WA 6007.

Workshops dates and times

 **6pm to 9pm**

 **Wednesday 9, 16, 23 October 2019**

 **Wednesday 6 November 2019**

**Register your interest by 25 September 2019.**
