**Subject:** Muzzling of greyhounds -- a Canadian contribution  
**Date:** Saturday, 20 July 2019 5:10:05 AM

---

Hello,

I have owned three greyhounds, all of them adopted from racetracks in the USA. Every one of them was a gentle, sweet animal that loved humans of all ages. There is absolutely no need to muzzle these dogs in public spaces. There may indeed be certain breeds that can be dangerous to humans, but greyhounds are absolutely not one of them.

I hope that the Western Australian government will abolish this requirement for greyhounds. If it ever had a justification in the past, it most certainly does not now.

Sincerely,  
Steven Spencer

I am writing today to express my feelings about requiring muzzles for greyhounds. Simply put: I feel this is ridiculous! A greyhound is no more likely to bite than any other dog is. Requiring muzzles for greyhounds is breed discrimination. And it is wrong.

Thank you for taking the time to read my comments.

Greyhounds who have suffered enough on the barbaric race tracks do not need to be subjected to this practice. They are tame and well-behaved creatures who do not deserve such rough treatment. Please reverse this weird law.

Thank you.

Dear Sir,

Please end the captivity and racing of greyhounds. This sport encourages gambling and is heartless with concerns for the dogs. These animals do not deserve to be muzzled or abused. All greyhound racing amounts to torture and abuse of these highly sensitive and intelligent beings. Please stop this despicable atrocity at once.

Sincerely,

To Whom it May Concern:

Greyhounds are some of the gentlest, calmest and sweetest dogs. Why must they be muzzled? Please amend the Dog Act to remove misguided, breed-specific language requiring greyhound muzzling.

The RSPCA and leading veterinarians agree that it's time for state law to STOP discriminating against greyhounds. Given the high "wastage" (kill) rate of ex-racing dogs Down Under, everything should be done to promote adoption, including letting people see just how wonderful these dogs are - **without** muzzles.

Do right by these lovely creatures. *Don't* require muzzles on greyhounds.

**Date:** Friday, 19 July 2019 10:20:57 PM

---

Dear Washington State Officials of the Cat and Dog Statutory Review Committee:

I kindly request that you seriously consider an amendment to the Dog Act of 1976; as you are aware, this act requires Greyhounds to be muzzled. I feel this act is outdated and entails misguided, breed-specific language that requires the muzzling of greyhound dogs. Since the writing of the Act over 40 years ago (when greyhounds were in the vast majority only known as racing animals), greyhounds have become well known as a household pet. Again, I do not feel it is any longer fair or appropriate to require the muzzling of Greyhounds. Will you please consider my request herein?

In support of my request and as quoted by "FREE THE HOUNDS, INC." of Washington State, who are advocating on the behalves of Greyhounds in Washington State:

" There is no evidence to suggest that the compulsory muzzling of greyhounds provides any benefit to the community nor makes the community safer • Western Australia's Dog Act is outdated and lagging behind the majority of other states who have already removed this requirement • Globally, Northern Ireland is the only other country in the world that has compulsory muzzling laws • Both the RSPCA and Australian Veterinary Association support the removal of compulsory muzzling laws • The WA racing industry regulator, RWWA has also indicated they support the removal of this law • Already over 4000 WA residents have signed petitions to support the removal of this law • There is no evidence to suggest that by changing this law there would be any increase in incidents involving greyhounds."

Thank you very much.

Dear Zak Kirkup MP,

cc: Cat and Dog statutory review

I would like to express my support for the complete removal of the section 33(1) of the Dog Act 1976 in relation to companion pet greyhounds - namely that similar to the recent changes in ACT, Victoria and NSW.

I believe companion greyhounds should be allowed to go muzzle free in public without the requirement to complete a training programme.

I support the removal of this law for companion pet greyhounds for the following reasons:

1. Greyhounds are kept as pets in countries all over the world muzzle free and there has been no increased incidence of greyhound dog bites to people, other dogs or animals
2. The RSPCA have found no evidence to suggest that greyhounds as a breed pose any greater risk than other dog breeds
3. Western Australia, South Australia and Tasmania are the only Australian states still with this law. All other states (VIC, NSW, QLD, ACT, NT) have removed this law
4. The view supported by veterinary behaviourists is that the behaviour of a particular dog should be based on that individual dogs attributes not its breed
5. As a breed, greyhounds are known for their generally friendly and gentle disposition, even despite their upbringing in the racing industry
6. Muzzling contributes to unwarranted negative public perceptions about greyhounds and their suitability as pets, impacting adoption opportunities
7. There is no evidence that shows that Breed Specific Legislation such as greyhounds wearing muzzles is effective in preventing or reducing dog attacks
8. The current 'prescribed training program' is called the Green Collar assessment. As with any behavioural assessment, it only can provide a snapshot of an animal's behaviour at a certain point in time. It doesn't recognise changes that may occur in a dogs behaviour over time, which could be influenced by variety of factors. Its implied assurance may discourage dog owner from ongoing responsibility for their pets behaviour developments
9. There is evidence that suggests that legislation that increases the responsibility of all dog owners, for example through higher fines, leads to a reduction in dog bites and increase in community safety
10. I have fostered numerous Greyhounds over the last 7 years, I also own a greyhound, never have I encountered a dangerous greyhound. These dogs are trusting, loving, wanting to please and are just like any other dog.

Dear Peter Rundle MP,

cc: Cat and Dog statutory review

I would like to express my support for the complete removal of the section 33(1) of the Dog Act 1976 in relation to companion pet greyhounds - namely that similar to the recent changes in ACT, Victoria and NSW.

I believe companion greyhounds should be allowed to go muzzle free in public without the requirement to complete a training programme. I urge that the muzzle law becomes dog specific, rather than breed specific.

I have owned rescued greyhounds for 15 years now. Their gentleness is what has made me such a fan of this breed. I have certainly owned more aggressive dogs in the past, but the law has not required me to muzzle those dogs. This contrast is why I have written to you to ask you to put your weight behind a change in this antiquated law.

I support the removal of this law for companion pet greyhounds for the following reasons:

1. Greyhounds are kept as pets in countries all over the world muzzle free and there has been no increased incidence of greyhound dog bites to people, other dogs or animals.
2. The RSPCA have found no evidence to suggest that greyhounds as a breed pose any greater risk than other dog breeds.
3. Western Australia, South Australia and Tasmania are the only Australian states still with this law. All other states (VIC, NSW, QLD, ACT, NT) have removed this law.
4. The view supported by veterinary behaviourists is that the behaviour of a particular dog should be based on that individual dogs attributes not its breed.
5. As a breed, greyhounds are known for their generally friendly and gentle disposition, even despite their upbringing in the racing industry.
6. Muzzling contributes to unwarranted negative public perceptions about greyhounds and their suitability as pets, impacting adoption opportunities.
7. There is no evidence that shows that Breed Specific Legislation such as greyhounds wearing muzzles is effective in preventing or reducing dog attacks.
8. The current 'prescribed training program' is called the Green Collar assessment. As with any behavioural assessment, it only can provide a snapshot of an animal's behaviour at a certain point in time. It also requires your dog to be put in a kennel for 5 days, something which is stressful for both animal and owner. It is also something that no other pet has to endure in order to enjoy on-leash walks.

Thank you for your consideration to help these gentle greyhounds become accepted like every other dog in our community

Good morning.

Please support amending the Dog Act; I don't see where this Act is effective or makes sense other than to stigmatize an entire breed of dog in requiring a muzzle.

There is no evidence that shows this language - requiring a muzzle - is effective in preventing or reducing dog attacks. Whether to muzzle a dog should be considered based upon the individual dog and their temperament, not imparted to an entire breed of dog. Responsibilities should reside with owners on this issue.

Thank you for your time.

Dear Members of the Legislative Council,

cc: Cat and Dog statutory review

I would like to express my support for the complete removal of the section 33(1) of the Dog Act 1976 in relation to companion pet greyhounds - namely that similar to the recent changes in ACT, Victoria and NSW.

I believe companion greyhounds should be allowed to go muzzle free in public without the requirement to complete a training programme.

I am a proud greyhound owner . We adopted Elsa 4 years ago , she is the most gentle and placid girl. When walking we are stopped often asking about her muzzle , we also have encountered negativity towards Elsa with adults moving their children away thinking that because of her muzzle she is extremely dangerous and vicious. My now 6 year old son learnt to say " she is a greyhound and it is law " very quickly.

I support the removal of this law for companion pet greyhounds for the following reasons:

1. Greyhounds are kept as pets in countries all over the world muzzle free and there has been no increased incidence of greyhound dog bites to people, other dogs or animals
2. The RSPCA have found no evidence to suggest that greyhounds as a breed pose any greater risk than other dog breeds
3. Western Australia, South Australia and Tasmania are the only Australian states still with this law. All other states (VIC, NSW, QLD, ACT, NT) have removed this law
4. The view supported by veterinary behaviourists is that the behaviour of a particular dog should be based on that individual dogs attributes not its breed
5. As a breed, greyhounds are known for their generally friendly and gentle disposition, even despite their upbringing in the racing industry
6. Muzzling contributes to unwarranted negative public perceptions about greyhounds and their suitability as pets, impacting adoption opportunities
7. There is no evidence that shows that Breed Specific Legislation such as greyhounds wearing muzzles is effective in preventing or reducing dog attacks
8. The current 'prescribed training program' is called the Green Collar assessment. As with any behavioural assessment, it only can provide a snapshot of an animal's behaviour at a certain point in time. 2. The RSPCA have found no evidence to suggest that greyhounds as a breed pose any greater risk than other dog breeds
3. Western Australia, South Australia and Tasmania are the only Australian states still with this law. All other states (VIC, NSW, QLD, ACT, NT) have removed this law
4. The view supported by veterinary behaviourists is that the behaviour of a particular dog should be based on that individual dogs attributes not its breed
5. As a breed, greyhounds are known for their generally friendly and gentle disposition, even despite their upbringing in the racing industry
6. Muzzling contributes to unwarranted negative public perceptions about greyhounds and their suitability as pets, impacting adoption opportunities
7. There is no evidence that shows that Breed Specific Legislation such as greyhounds wearing muzzles is effective in preventing or reducing dog attacks
8. The current 'prescribed training program' is called the Green Collar assessment. As with any behavioural assessment, it only can provide a snapshot of an animal's behaviour at a certain point in time
9. There is evidence that suggests that legislation that increases the responsibility on all dog owners for their dog's actions, regardless of breed, for example through higher fines, leads to a reduction in dog bites and increase in community safety

Respectfully,

**From:** [REDACTED]  
**To:** [Cat and Dog Review](#)

**Subject:** Dog Act 1976 (Greyhound Muzzling in Western Australia)  
**Date:** Friday, 19 July 2019 12:42:05 PM

---

To Whom It May Concern:

There is absolutely no reason for retired track dogs to be muzzled in public, just because they are greyhounds. Greyhounds traditionally are used to being handled by people from a young age, and this early socialization tends to make dogs accepting of people and friendly.

Please amend or repeal this outdated unnecessary law.

Dear Simone McGurk MP,

cc: Cat and Dog statutory review

I would like to express my support for the complete removal of the section 33(1) of the Dog Act 1976 in relation to companion pet greyhounds - namely that similar to the recent changes in ACT, VIC and NSW.

I believe companion greyhounds should be allowed to go muzzle free in public without the requirement to complete a training program.

I support the removal of this law for companion pet greyhounds for the following reasons:

1. Greyhounds are kept as pets in countries all over the world muzzle free and there has been no increased incidence of greyhound dog bites to people, other dogs or animals
2. The RSPCA have found no evidence to suggest that greyhounds as a breed pose any greater risk than other dog breeds
3. WA, SA and TAS are the only Australian states still with this law. All other states (VIC, NSW, QLD, ACT, NT) have removed this law
4. The view supported by veterinary behaviorists is that the behavior of a particular dog should be based on that individual dogs attributes not its breed
5. As a breed, greyhounds are known for their generally friendly and gentle disposition, even despite their upbringing in the racing industry
6. Muzzling contributes to unwarranted negative public perceptions about greyhounds and their suitability as pets, impacting adoption opportunities
7. There is no evidence that shows that Breed Specific Legislation such as greyhounds wearing muzzles is effective in preventing or reducing dog attacks
8. The current 'prescribed training program' is called the Green Collar assessment. As with any behavioral assessment, it only can provide a snapshot of an animal's behavior at a certain point in time. It doesn't recognize changes that may occur in a dogs behavior over time, which could be influenced by variety of factors. Its implied assurance may discourage dog owner from ongoing responsibility for their pets behavior developments
9. There is evidence that suggests that legislation that increases the responsibility of all dog owners, for example through higher fines, leads to a reduction in dog bites and increase in community safety

Dear Animal Regulators in Australia,

We are very concerned about your muzzle laws for Greyhounds. These animals are not a risk to anyone; they have very good temperaments! That is why the dog racing industry has used them as they are so compliant and mild-mannered.

This law is irresponsible and misguided. No one can judge a dog and its behavior by its breed! Each dog must be considered individually, certainly not by breed! This muzzling requirement must be repealed ASAP! It is simply unfair to inflict muzzles on sweet dogs with good behavioral traits!

Please amend the Dog Act to remove misguided breed-specific language that requires Greyhounds to be muzzled in public. This sends a negative message to people who might fear these dogs when that fear is unfounded! These dogs deserve to be adopted into loving and caring homes! They have been abused enough and are truly lucky to be alive. The kill rate at race tracks is an abomination and must end! The dogs are treated like objects, all for the profit they bring in! When they suffer injuries or are not up to speed, they are quickly euthanized like pieces of trash! It is a disgusting industry that exploits and abuses Greyhounds 24/7!

Many dog racetracks have been shut down around the world. The fact that Australia still supports this horrific cruelty sends a loud and clear message everywhere of your lack of respect and compassion!

We thank you for your serious consideration for ending the muzzle law for Greyhounds! It truly is a step in the right direction. These dogs deserve humane treatment and the chance for good homes!

With sincere gratitude,

Please consider amending Dog Act 1976 to remove the requirement for all greyhounds to be muzzled in public without the requirement to complete a training program.

- There is no evidence to suggest that the compulsory muzzling of greyhounds provides any benefit to the community nor makes the community safer
- Western Australia's Dog Act is outdated and lagging behind the majority of other states who have already removed this requirement
- Globally, Northern Ireland is the only other country in the world that has compulsory muzzling laws
- Both the RSPCA and Australian Veterinary Association support the removal of compulsory muzzling laws
- The WA racing industry regulator, RWWA has also indicated they support the removal of this law
- Already over 4000 WA residents have signed petitions to support the removal of this law
- There is no evidence to suggest that by changing this law there would be any increase in incidents involving greyhounds

Thank you for considering an amendment.

To Whom It May Concern,

I am appalled at this cruel act against greyhounds. These dogs suffer enough torment by those who race them for greed and gain. I thought much more of Australia as far as animal protections go but I have been reading about some inhumane acts which the government needs to stop and this is one of them.

I hope someone with compassion, love for humans and animals, kind and generous with dignity will stop this act of cruelty of muzzling the Greyhounds. We in America are suffering under Trump's evil agenda including not caring about animals or anything for that matter. I would hope there are countries which are above this behavior and Australia should definitely be one.

Do not allow this act and all acts of animal cruelty to bring your country down. Stand up for animals and their protection and you will not be sorry for these acts of kindness, so rare in this world any more.

Thank you for your anticipated cooperation and coming to a wise and intelligent decision on this matter.

Hello

I'm writing to respectfully request that you end the muzzling of greyhounds.

I've been around many rescued greyhounds, and if there's one dog that doesn't need a muzzle...it's a greyhound!

Please don't judge all greyhounds the same. Each one has its own personality. However, I've never met a greyhound who requires a muzzle!

Thanks for your attention to this important matter.

I strongly urge you to reform and remove legislation regarding muzzling greyhounds. Breed legislation is discrimination and shouldn't apply to any one particular breed of dogs, but why this in place for greyhounds is a mystery. Greyhounds are not a "vicious breed". They have wonderful temperaments.

The kill rate of ex-racers is so high, you should be doing everything possible to promote adoption. Keeping them muzzled is a huge detriment to this cause.

Further, the RSPCA and leading veterinarians all agree that it's time to end these laws and stop discriminating against greyhounds.

Their adoption rate depends on you. Please help them.

Sincerely,

---

To whom it may concern,

I own two rescued greyhound racers and they are the kindest creatures you could imagine. I cannot imagine what my greyhounds endured on the race tracks or being caged in the kennels, not to mention the scars on their bodies. Others have it far worse and suffer horrible injuries and unkind deaths.

With that said, if they make it off the racetracks I believe they should be able to live a peaceful and carefree life as any other pet dog. The likelihood of this breed being vicious is extremely rare; in the rare case if they are troubled, then I believe a muzzle should be enforced.

Please end this practice of forced muzzling with Greyhounds in Western Australia.

---

You need to amend the Dog Act to remove misguided, breed-specific language requiring greyhound muzzling. As a former greyhound 'mom', they are the sweetest, kindest and most gentle dog breed you could ever imagine. I am involved with dog rescue in the US and have rescued/fostered everything from Chihuahua's to Mastiffs. There's no reason to muzzle ANY dog unless there is proven issue with the INDIVIDUAL dog. This is no different that the prejudice that people have of Pitbulls. Get educated and understand, just like humans, dogs are individuals.

Respectfully,

---

Please amend the Dog Act to remove breed-specific language requiring muzzling, especially of adopted greyhounds. Muzzling should be based on specific dog behavior, not on where a dog came from, its past, or its breed.

Why do you hate grey hounds so much.  
No Muzzles.  
Treat humanely.

I have adopted greyhounds since 1994. We have so far had a total of 6. These are gentle, loving dogs. There is no reason whatsoever to muzzle a greyhound in public. They are not aggressive dogs and this law is absurd.
