

**Steve Walker**  
**WA Local Government Act Review Phase 2.**  
File 6.

**State Agencies need to be empowered.**

Too often members of the public go to them are told the limits of what they can do.

*State Agencies* –Department of Local Government, Auditor General, Office of The Information Commissioner, Ombudsman, Auditor General, WAPC, Heritage Council, have all expressed they need more powers to act.

Plus did you know, many did not have a *Director General* at work/not at desk, during the first 6 months of 2018.

Phase Two must lead to delivering those powers to those State Agencies. Otherwise their will be no improvement in metropolitan local governments.

**Regards**  
Steve Walker.
