| • The Act provides the means to regulate the conduct of local government staff and council members and sets out powers to scrutinise the affairs of local government. The Act provides certain limited powers to:  
  o Suspend or dismiss councils  
  o Appoint Commissioners  
  o Suspend or, order remedial action (such as training) for individual councillors. | • It is proposed to establish a Chief Inspector of Local Government (the **Inspector**), supported by an Office of the Local Government Inspector (the **Inspectorate**).  
  • The Inspector would receive minor and serious complaints about elected members.  
  • The Inspector would oversee complaints relating to local government CEOs.  
  • Local Governments would still be responsible for dealing with minor behavioural complaints.  
  • The Inspector would have powers of a standing inquiry, able to investigate and intervene in any local government where potential issues are identified.  
  • The Inspector would have the authority to assess, triage, refer, investigate, or close complaints, having regard to various public interest criteria – considering laws such as the Corruption, Crime and Misconduct Act 2003, the Occupational Safety and Health Act 1984, the Building Act 2011, and other legislation.  
  • The Inspector would have powers to implement minor penalties for less serious breaches of the Act, with an appeal mechanism.  
  • The Inspector would also have the power to order a local government to address non-compliance with the Act or Regulations.  
  • The Inspector would be supported by a panel of **Local Government Monitors** (see item 1.2).  
  • The existing Local Government Standards Panel would be replaced with a new **Conduct Panel** (see item 1.3). | Will assist to improve local government CEO and elected member conduct using an independent, external body.  
Would like the role to include advisory service for Mayors/Shire Presidents, Councillors and CEOs to seek independent advice on whether a matter warrants reporting. |

### 1.2 Local Government Monitors

- There are currently no legislative powers for the provision of monitors/ temporary advisors.
- The DLGSC provides support and advice to local governments, however there is no existing mechanism for pre-qualified, specialised assistance to manage complex cases.

- A panel of **Local Government Monitors** would be established.
- Monitors could be appointed by the Inspector to go into a local government and try to resolve problems.
- The purpose of Monitors would be to proactively fix problems, rather than to identify blame or collect evidence.
- Monitors would be qualified specialists, such as:
  - Experienced and respected former Mayors, Presidents, and CEOs - to act as mentors and facilitators
  - Dispute resolution experts - to address the breakdown of professional working relationships
  - Certified Practicing Accountants and other financial specialists - to assist with financial management and reporting issues
  - Governance specialists and lawyers - to assist councils resolve legal issues
  - HR and procurement experts - to help with processes like recruiting a CEO or undertaking a major land transaction.
- Only the Inspector would have the power to appoint Monitors.
- Local governments would be able to make requests to the Inspector to appoint Monitors for a specific purpose.

**Supported.**

Will this be a fee for service model, if so, smaller local governments may not have capacity to pay. Monitors should be able to facilitate sharing of information.
**CURRENT PROVISIONS** | **PROPOSED REFORMS** | **COMMENTS**
--- | --- | ---

**Monitor Case Study 1 – Financial Management**

The Inspector receives information that a local government is not collecting rates correctly under the *Local Government Act 1995*. Upon initial review, the Inspector identifies that there may be a problem. The Inspector appoints a Monitor who specialises in financial management in local government. The Monitor visits the local government and identifies that the system used to manage rates is not correctly issuing rates notices. The Monitor works with the local government to rectify the error, and issue corrections to impacted ratepayers.

**Monitor Case Study 2 – Dispute Resolution**

The Inspector receives a complaint from one councillor that another councillor is repeatedly publishing derogatory personal attacks against another councillor on social media, and that the issue has not been able to be resolved at the local government level. The Inspector identifies that there has been a relationship breakdown between the two councillors due to a disagreement on council.

The Inspector appoints a Monitor to host mediation sessions between the councillors. The Monitor works with the councillors to address the dispute. Through regular meetings, the councillors agree to a working relationship based on the council’s code of conduct. After the mediation, the Monitor occasionally makes contact with both councillors to ensure there is a cordial working relationship between the councillors.

### 1.3 Conduct Panel

- The Local Government Standards Panel was established in 2007 to resolve minor breach complaints relatively quickly and provide the sector with guidance and support.

- The Standards Panel is proposed to be replaced with a new Local Government **Conduct Panel**.

<td>• Councillors who are disqualified would not be eligible for sitting fees or allowances. They will also not be able to attend meetings, or use their official office (such as their title or council email address).</td>

</tbody>
</table>
### CURRENT PROVISIONS | PROPOSED REFORMS | COMMENTS
--- | --- | ---

- Councillors who do not complete mandatory training within a certain timeframe will also not be able to receive sitting fees or allowances.

1.5 Rapid Red Card Resolutions

- Currently, local governments have different local laws and standing orders that govern the way meetings run. Presiding members (Mayors and Presidents) are reliant on the powers provided in the local government standing orders local laws.
- Differences between local governments is a source of confusion about the powers that presiding members have to deal with disruptive behaviours at council meetings.
- Disruptive behaviour at council meetings is a very common cause of complaints. Having the Presiding Member be able to deal with these problems should more quickly resolve problems that occur at council meetings.
- It is proposed that Standing Orders are made consistent across Western Australia (see item 2.6). Published recordings of all meetings would also become standard (item 3.1).
- It is proposed that Presiding Members have the power to “red card” any attendee (including councillors) who unreasonably and repeatedly interrupt council meetings. This power would:
  - Require the Presiding Member to issue a clear first warning
  - If the disruptions continue, the Presiding Member will have the power to “red card” that person, who must be silent for the rest of the meeting. A councillor issued with a red card will still vote, but must not speak or move motions
  - If the person continues to be disruptive, the Presiding Member can instruct that they leave the meeting.
- Any Presiding Member who uses the “red card” or ejection power will be required to notify the Inspector.
- Where an elected member refuses to comply with an instruction to be silent or leave, or where it can be demonstrated that the presiding member has not followed the law in using these powers, penalties can be imposed through a review by the Inspector.

**Supported** (terminology could be improved). Would need to include clear guidelines for Presiding Members.

1.6 Vexatious Complaint Referrals
### CURRENT PROVISIONS
- No current provisions.
- The Act already provides a requirement for Public Question Time at council meetings.

### PROPOSED REFORMS
- Local governments already have a general responsibility to provide ratepayers and members of the public with assistance in responding to queries about the local government’s operations. Local governments should resolve queries and complaints in a respectful, transparent and equitable manner.
- Unfortunately, local government resources can become unreasonably diverted when a person makes repeated vexatious queries, especially after a local government has already provided a substantial response to the person’s query.
- It is proposed that if a person makes repeated complaints to a local government CEO that are vexatious, the CEO will have the power to refer that person’s complaints to the Inspectorate, which after assessment of the facts may then rule the complaint vexatious.

### COMMENTS
- Supported.

### 1.7 Minor Other Reforms
- Other minor reforms are being considered to enhance the oversight of local government.
- Ministerial Circulars have traditionally been used to provide guidance to the local government sector.

- Potential other reforms to strengthen guidance for local governments are being considered.
- For example, one option being considered is the potential use of sector-wide guidance notices. Guidance notices could be published by the Minister or Inspector, to give specific direction for how local governments should meet the requirements of the Local Government Act and Regulations. For instance, the Minister could publish guidance notices to clarify the process for how potential conflicts of interests should be managed.
- It is also proposed (see item 1.1) that the Inspector has the power to issue notices to individual local governments to

- Supported.
  Also support an email or phone advisory service.
## Theme 2: Reducing Red Tape, Increasing Consistency and Simplicity

| **2.1 Resource Sharing** | • The Act does not currently include specific provisions to allow for certain types of resource sharing – especially for sharing CEOs.  
• Regional local governments would benefit from having clearer mechanisms for voluntary resource-sharing.  
| • Amendments are proposed to encourage and enable local governments, especially smaller regional local governments, to share resources, including Chief Executive Officers and senior employees.  
• Local governments in bands 2, 3 or 4 would be able to appoint a shared CEO at up to two salary bands above the highest band. For example, a band 3 and a band 4 council sharing a CEO could remunerate to the level of band 1.  | **Supported.**  
There is strong support for the theory of sharing of resources (staff and systems) and collaboration but difficult to implement. Support in the form of template agreements, models, for this would be welcomed. |

| **2.2 Standardisation of Crossovers** | • Approvals and standards for crossovers (the section of driveways that run between the kerb and private property) are inconsistent between local government areas, often with very minor differences.  
• This can create confusion and complexity for homeowners and small businesses in the construction sector.  | **Supported in theory** – complexity likely to arise due to differences between city, regional, rural and remote variables. |
| | • It is proposed to amend the Local Government (Uniform Local Provisions) Regulations 1996 to standardise the process for approving crossovers for residential properties and residential developments on local roads.  
• A Crossover Working Group has provided preliminary advice to the Minister and DLGSC to inform this.  
• The DLGSC will work with the sector to develop standardised design and construction standards.  | |

</tr>
</tbody>
</table>
### Current Requirements
- Inconsistency among the meeting procedures between local governments is a common source of complaints.

### Proposed Reforms
- Regulations would introduce standard requirements for public question time, and the procedures for meetings generally.
- Members of the public across all local governments would have the same opportunities to address council and ask questions.

### Comments

#### 2.7 Regional Subsidiaries
- Initiatives by multiple local governments may be managed through formal Regional Councils, or through less formal “organisations of councils”, such as NEWROC and WESROC.
- These initiatives typically have to be managed by a lead local government.
- In 2016-17, provisions were introduced to allow for the formation of Regional Subsidiaries. Regional Subsidiaries can be formed in line with the *Local Government (Regional Subsidiaries) Regulations 2017*.
- So far, no Regional Subsidiary has been formed.

- Work is continuing to consider how Regional Subsidiaries can be best established to:
  - Enable Regional Subsidiaries to provide a clear and defined public benefit for people within member local governments
  - Provide for flexibility and innovation while ensuring appropriate transparency and accountability of ratepayer funds
  - Where appropriate, facilitate financing of initiatives by Regional Subsidiaries within a reasonable and defined limit of risk
  - Ensure all employees of a Regional Subsidiary have the same employment conditions as those directly employed by member local governments.

- Supported.

### 3.2 Recording All Votes in Council Minutes

- A local government is only required to record which councillor voted for or against a motion in the minutes of that meeting if a request is made by an elected member at the time of the resolution during the meeting.
- The existing provision does not mandate transparency.

- To support the transparency of decision-making by councillors, it is proposed that the individual votes cast by all councillors for all council resolutions would be required to be published in the council minutes, and identify those for, against, on leave, absent or who left the chamber.
- Regulations would prescribe how votes are to be consistently minuted.

**Supported.**

### 3.3 Clearer Guidance for Meeting Items that may be Confidential

- The Act currently provides broad definitions of what type of matters may be discussed as a confidential item.
- There is limited potential for review of issues managed as confidential items under the current legislation.

- Recognising the importance of open and transparent decision-making, it is considered that confidential meetings and confidential meeting items should only be used in limited, specific circumstances.
- It is proposed to make the Act more specific in prescribing items that may be confidential, and items that should remain open to the public.
- Items not prescribed as being confidential could still be held as confidential items only with the prior written consent of the Inspector.
- All confidential items would be required to be audio recorded, with those recordings submitted to the DLGSC.

**Supported, with the exception of being required to submit to DLGSC. This is an added administrative burden on LG.**

### 3.4 Additional Online Registers
### Current Requirements

- Local governments are required to provide information to the community through annual reports, council minutes and the publication of information online.
- Consistent online publication of information can substitute for certain material in annual reports.
- Consistency in online reporting across the sector will provide ratepayers with better information.
- These registers supplement the simplification of financial statements in Theme 6.

### Proposed Reforms

- It is proposed to require local governments to report specific information in online registers on the local government’s website. Regulations would prescribe the information to be included.

  The following new registers, each updated quarterly, are proposed:
  
  - **Lease Register** to capture information about the leases the local government is party to (either as lessor or lessee)
  - **Community Grants Register** to outline all grants and funding provided by the local government
  - **Interests Disclosure Register** which collates all disclosures made by elected members about their interests related to matters considered by council
  - **Applicant Contribution Register** accounting for funds collected from applicant contributions, such as cash-in-lieu for public open space and car parking
  - **Contracts Register** that discloses all contracts above $100,000.

### Comments

Supported, recognising that this places an additional administrative burden on LG.

### Chief Executive Officer Key Performance Indicators (KPIs) be Published

- It is a requirement of the Local Government Act 1995 that CEO performance reviews are conducted annually.
- The Model Standards for CEO recruitment and selection, performance review and termination require that a local government must review the performance of the CEO against contractual performance criteria.

- To provide for minimum transparency, it is proposed to mandate that the KPIs agreed as performance metrics for CEOs:

  - Be published in council meeting minutes as soon as they are agreed prior to (before the start of the annual period)
  - The KPIs and the results be published in the minutes of the performance review meeting (at the end of the period)
  - The CEO has a right to provide written comments to be published alongside the KPIs and results to provide

### Support

- Partially supported. Support KPIs being available to the public.
- Do not support result of performance review being public. This is a confidential HR matter.

<td></td>
</tr>
<tr>
<td><strong>4.3 Introduction of Preferential Voting</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
## CURRENT REQUIREMENTS
- The current voting method for local government elections is first past the post.
- The existing first-past-the-post does not allow for electors to express more than one preference.
- The candidate with the most votes wins, even if that candidate does not have a majority.
- Preferential voting better captures the precise intentions of voters and as a result may be regarded as a fairer and more representative system. Voters have more specific choice.

## PROPOSED REFORMS
- Preferential voting is proposed be adopted as the method to replace the current first past the post system in local government elections.
- In preferential voting, voters number candidates in order of their preferences.
- Preferential voting is used in State and Federal elections in Western Australia (and in other states). This provides voters with more choice and control over who they elect.
- All other states use a form of preferential voting for local government.

## COMMENTS
- **Not Supported.**
  - Could result in the introduction of factions, alliances and / or party politics into local government.

### 4.4 Public Vote to Elect the Mayor and President
- The Act currently allows local governments to have the Presiding Member (the Mayor or President) elected either:
  - by the electors of the district through a public vote; or
  - by the council as a resolution at a council meeting.
- Mayors and Presidents of all local governments perform an important public leadership role within their local communities.
- Band 1 and 2 local governments generally have larger councils than those in bands 3 and 4.
- Accordingly, it is proposed that the Mayor or President for all band 1 and 2 councils is to be elected through a vote of the electors of the district. Councils in bands 3 and 4 would retain the current system.
- A number of Band 1 and Band 2 councils have already moved towards Public Vote to Elect the Mayor and President in recent years, including City of Stirling and City of Rockingham.

### 4.5 Tiered Limits on the Number of Councillors
- The number of councillors (between 5-15 councillors) is decided by each local
- It is proposed to limit the number of councillors based on the population of the entire local government.

**Not Supported**
- The Council should elect its own leader as the primary role of the Shire President / Mayor is to lead the Council.

| A local government can make an application to be divided into wards, with councillors elected to those wards. Only about 10% of band 3 and 4 local governments currently have wards. | • It is proposed that the use of wards for councils in bands 3 and 4 is abolished.  
• Wards increase the complexity of elections, as this requires multiple versions of ballot papers to be prepared for a local government’s election.  
• In smaller local governments, the population of wards can be very small.  
• These wards often have councillors elected unopposed, or elect a councillor with a very small number of votes. Some local governments have ward councillors elected with less than 50 votes.  
• There has been a trend in smaller local governments looking to reduce the use of wards, with only 10 councils in bands 3 and 4 still having wards. | Supported. Support the removal of ward system entirely. |

4.7 Electoral Reform – Clear Lease Requirements for Candidate and Voter Eligibility
### CURRENT REQUIREMENTS

- A person with a lease in a local government district is eligible to nominate as a candidate in that district.
- A person with a lease in a local government district is eligible to apply to vote in that district.
- The City of Perth Inquiry Report identified a number of instances where dubious lease arrangements put to question the validity of candidates in local government elections, and subsequently their legitimacy as councillors.

### PROPOSED REFORMS

- Reforms are proposed to prevent the use of “sham leases” in council elections. Sham leases are where a person creates a lease only to be able to vote or run as a candidate for council.
- The City of Perth Inquiry Report identified sham leases as an issue.
- Electoral rules are proposed to be strengthened:
  - A minimum lease period of 12 months will be required for anyone to register a person to vote or run for council.
  - Home based businesses will not be eligible to register a person to vote or run for council, because any residents are already the eligible voter(s) for that address.
  - Clarifying the minimum criteria for leases eligible to register a person to vote or run for council.
- The reforms would include minimum lease periods to qualify as a registered business (minimum of 12 months), and the exclusion of home based businesses (where the resident is already eligible) and very small sub-leases.
- The basis of eligibility for each candidate (e.g. type of property and suburb of property) is proposed to be published, including in the candidate pack for electors.

### COMMENTS

Supported.

### 4.8 Reform of Candidate Profiles

- Candidate profiles can only be 800 characters, including spaces. This is equivalent to approximately 150 words.
- Further work will be undertaken to evaluate how longer candidate profiles could be accommodated.
- Longer candidate profiles would provide more information to electors, potentially through publishing profiles online.
- It is important to have sufficient information available to assist electors make informed decisions when casting their vote.

- These roles would be further strengthened through Council Communications Agreements (see item 5.3). |  
5.2.1 – Mayor or President Role  
- It is proposed to amend the Act to specify the roles and responsibilities of the Mayor or President.  
- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the Mayor or President is responsible for:  
  - Representing and speaking on behalf of the whole council and the local government, at all times being consistent with the resolutions of council | Supported in principle with some flexibility to recognise that Mayors/Shire Presidents are often seen as community leaders who speak on community issues on which there is no formal council position. |

**5.2.2 - Council Role**

- It is proposed to amend the Act to specify the roles and responsibilities of the Council, which is the entity consisting of all of the councillors and led by the Mayor or President.
- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the Council is responsible for:
  - Making significant decisions and determining policies through democratic deliberation at council meetings
  - Ensuring the local government is adequately resourced to deliver the local governments operations, services and functions - including all functions that support informed decision-making by council
  - Providing a safe working environment for the CEO;
  - Providing strategic direction to the CEO;
  - Monitoring and reviewing the performance of the local government.

**5.2.3 - Elected Member (Councillor) Role**

- It is proposed to amend the Act to specify the roles and responsibilities of all elected councillors.

**Supported.**

There should also be specific reference to Council's role recruiting and employing the CEO.

5.3 Council Communication Agreements

- The Act provides that council and committee members can have access to any information held by the local government that is relevant to the performance of the member in their functions.
- In State Government, there are written Communication Agreements between Ministers and agencies that set standards for how information and advice will be provided.
- It is proposed that local governments will need to have Council Communications Agreements between the council and the CEO.
### CURRENT REQUIREMENTS
- The availability of information is sometimes a source of conflict within local governments.

### PROPOSED REFORMS
- These Council Communication Agreements would clearly specify the information that is to be provided to councillors, how it will be provided, and the timeframes for when it will be provided.
- A template would be published by DLGSC. This default template will come into force if a council and CEO do not make a specific other agreement within a certain timeframe following any election.

### COMMENTS

#### 5.4 Local Governments May Pay Superannuation Contributions for Elected Members
- Elected members are eligible to receive sitting fees or an annual allowance.
- Superannuation is not paid to elected members. However, councillors can currently divert part of their allowances to a superannuation fund.
- Councils should be reflective and representative of the people living within the district. Local governments should be empowered to remove any barriers to the participation of gender and age diverse people on councils.
- It is proposed that local governments should be able to decide, through a vote of council, to pay superannuation contributions for elected members. These contributions would be additional to existing allowances.
- Superannuation is widely recognised as an important entitlement to provide long term financial security.
- Other states have already moved to allow councils to make superannuation contributions for councillors.
- Allowing council to provide superannuation is important part of encouraging equality for people represented on council – particularly for women and younger people.
- Providing superannuation to councillors recognises that the commitment to elected office can reduce a person’s opportunity to undertake employment and earn superannuation contributions.

*Supported.*

#### 5.5 Local Governments May Establish Education Allowances
- Local government elected members must complete mandatory training.
- There is no specific allowance for undertaking further education.
- Local governments will have the option of contributing to the education expenses for councillors, up to a defined maximum value, for tuition costs for further education that is directly related to their role on council.

### 5.6 Standardised Election Caretaker period

- There is currently no requirement for a formal caretaker period, with individual councils operating under their own policies and procedures.
- This is commonly a point of public confusion.

- A statewide caretaker period for local governments is proposed.
- All local governments across the State would have the same clearly defined election period, during which:
  - Councils do not make major decisions with criteria to be developed defining ‘major’
  - Incumbent councillors who nominate for re-election are not to represent the local government, act on behalf of the council, or use local government resources to support campaigning activities.
  - There are consistent election conduct rules for all candidates.

**Not supported – more detail required.** What is ‘major’? How long will the caretaker period be? As this period would re-occur every two years, there is a potential for delays in decision-making; in addition, newly elected Councillors could then be required to make ‘major’ decisions very early in their tenure.

<tbody>
<tr>
<td><strong>6.1 Model Financial Statements and Tiered Financial Reporting</strong></td>

- The financial statements published in the Annual Report is the main financial reporting currently published by local governments.
- Reporting obligations are the same for large (Stirling, Perth, Fremantle) and small (Sandstone, Wiluna, Dalwallinu) local governments, even though they vary significantly in complexity.
- The Office of the Auditor General has said that some existing reporting requirements are unnecessary or onerous - for instance, information that is not relevant to certain local governments, or that is a duplicate of other published information.

- The Minister strongly believes in transparency and accountability in local government. The public rightly expects the highest standards of integrity, good governance, and prudent financial management in local government.
- It is critically important that clear information about the financial position of local governments is openly available to ratepayers. Financial information also supports community decision-making about local government services and projects.
- Local governments differ significantly in the complexity of their operations. Smaller local governments generally have much less operating complexity than larger local governments.
- The Office of the Auditor General has identified opportunities to improve financial reporting, to make statements clearer, and reduce unnecessary complexity.
- Recognising the difference in the complexity of smaller and larger local governments, it is proposed that financial reporting requirements should be tiered – meaning that larger local governments will have greater financial reporting requirements than smaller local governments.
- It is proposed to establish standard templates for Annual Financial Statements for band 1 and 2 councils, and simpler, clearer financial statements for band 3 and 4.
- **Online Registers**, updated quarterly (see item 3.4), would provide faster and greater transparency than current annual reports. Standard templates will be published for use by local governments.

**6.2 Simplify Strategic and Financial Planning**

- Requirements for plans are outlined in the Local Government Financial Management and Administration Regulations.
- There is also the Integrated Planning and Reporting (IPR) framework.
- While many councils successfully apply IPR to their budgeting and reporting, IPR may seem complicated or difficult, especially for smaller local governments.

- Having clear information about the finances of local government is an important part of enabling informed public and ratepayer engagement and input to decision-making.
- The framework for financial planning should be based around information being clear, transparent, and easy to understand for all ratepayers and members of the public.
- In order to provide more consistency and clarity across the State, it is proposed that greater use of templates is introduced to make planning and reporting clearer and simpler, providing greater transparency for ratepayers.
- Local governments would be required to adopt a standard set of plans, and there will be templates published by the DLGSC for use or adaption by local governments.
- It is proposed that the plans that are required are:
  - o **Simplified Council Plans** that replace existing Strategic Community Plans and set high-level objectives, with a new plan required at least every eight years. These will be short-form plans, with a template available from the DLGSC
  - o **Simplified Asset Management Plans** to consistently forecast costs of maintaining the local government’s assets. A new plan will be required at least every ten years, though local governments should update the plan regularly if the local government gains or disposes of major assets (e.g. land, buildings, or roads). A template will be provided, and methods of valuations will be simplified to reduce red tape

### 6.3 Rates and Revenue Policy

- Local governments are not required to have a rates and revenue policy.
- Some councils defer rate rises, resulting in the eventual need to drastically raise rates to cover unavoidable costs – especially for the repair of infrastructure.
- The Rates and Revenue Policy is proposed to increase transparency for ratepayers by linking rates to basic operating costs and the minimum costs for maintaining essential infrastructure.
- A Rates and Revenue Policy would be required to provide ratepayers with a forecast of future costs of providing local government services.
- The Policy would need to reflect the Asset Management Plan and the Long Term Financial Plan (see item 6.2), **Supported.**

6.4 Monthly Reporting of Credit Card Statements

- No legislative requirement.
- Disclosure requirements brought in by individual councils have shown significant reduction of expenditure of funds.
- The statements of a local government’s credit cards used by local government employees will be required to be tabled at council at meetings on a monthly basis.
- This provides oversight of incidental local government spending.
- **Supported.**

6.5 Amended Financial Ratios

- Local governments are required to report seven ratios in their annual financial statements.
- These are reported on the MyCouncil website.
- These ratios are intended to provide an indication of the financial health of every local government.
- Financial ratios will be reviewed in detail, building on work already underway by the DLGSC.
- The methods of calculating ratios and indicators will be reviewed to ensure that the results are accurate and useful.
- **Supported.** Need a clear definition of own source revenue that includes untied grants.

6.6 Audit Committees
### CURRENT REQUIREMENTS

- Local governments must establish an Audit Committee that has three or more persons, with the majority to be council members.
- The Audit Committee is to guide and assist the local government in carrying out the local government’s functions in relation to audits conducted under the Act.
- The Panel Report identified that Audit Committees should be expanded, including to provide improved risk management.

### PROPOSED REFORMS

- To ensure independent oversight, it is proposed the Chair of any Audit Committee be required to be an independent person who is not on council or an employee of the local government.
- Audit Committees would also need to consider proactive risk management.
- To reduce costs, it is proposed that local governments should be able to establish shared Regional Audit Committees.
- The Committees would be able to include council members but would be required to include a majority of independent members and an independent chairperson.

### COMMENTS

- **Partially supported.**
  - Needs to mandate that Councillors are the majority of Audit Committee members with some independent members with technical expertise.

### 6.7 Building Upgrade Finance

- The local government sector has sought reforms that would enable local governments to provide loans to property owners to finance for building improvements.
- This is not currently provided for under the Act.
- The Local Government Panel Report included this recommendation.

- Reforms would allow local governments to provide loans to third parties for specific building improvements - such as cladding, heritage and green energy fixtures.
- This would allow local governments to lend funds to improve buildings within their district.
- Limits and checks and balances would be established to ensure that financial risks are proactively managed.

### 6.8 Cost of Waste Service to be Specified on Rates Notices

- No requirement for separation of waste changes on rates notice.
- Disclosure will increase ratepayer awareness of waste costs.
- The Review Panel Report included this recommendation.

- It is proposed that waste charges are required to be separately shown on rate notices (for all properties which receive a waste service).
- This would provide transparency and awareness of costs for ratepayers.
