Dear Minister

LOCAL GOVERNMENT REFORM SUBMISSION

I refer to recently proposed local government reforms and the call for public submissions, which will inform the drafting of the new legislation.

I am pleased to attach a copy of the Shire’s comments in relation to each proposed reform, which have been endorsed by the elected Council.

If you have any questions please contact Joshua Brown, Governance Manager and Risk on [redacted]

The Shire appreciates the opportunity to comment.

Yours sincerely

Local Government Reform –
Summary of Proposed Reforms
Local Government Reform – Consultation on Proposed Reforms

Local government benefits all Western Australians. It is critical that local government works with:
- a culture of openness to innovation and change
- continuous focus on the effective delivery of services
- respectful and constructive policy debate and democratic decision-making
- an environment of transparency and accountability to ensure effective public engagement on important community decisions.

Since first coming to office in 2017, the McGowan Government has already progressed reforms to improve specific aspects of local government performance. This includes new laws that work to improve transparency, cut red tape, and support jobs growth and economic development - ensuring that local government works for the benefit of local communities.

Based on the significant volume of research and consultation undertaken over the past five years, the Minister for Local Government has now announced the most significant package of major reforms to local government in Western Australia since the Local Government Act 1995 was passed more than 25 years ago. The package is based on six major themes:
1. Earlier intervention, effective regulation and stronger penalties
2. Reducing red tape, increasing consistency and simplicity
3. Greater transparency and accountability
4. Stronger local democracy and community engagement
5. Clear roles and responsibilities
6. Improved financial management and reporting.

A large focus on the new reform is oversight and intervention where there are significant problems arising within a local government. The introduction of new intermediate powers for intervention will increase the number of tools available to more quickly address problems and dysfunction within local governments. The proposed system for early intervention has been developed based on similar legislation in place in other jurisdictions, including Victoria and Queensland.

This will deliver significant benefits for small business, residents and ratepayers, industry, elected members and professionals working in the sector.

Local Government Reforms

These reforms are based on extensive consultation undertaken over the last five years, and have been developed considering:
- The Local Government Review Panel Final Report (mid 2020)
- The City of Perth Inquiry Report (mid 2020)
- Department of Local Government, Sport and Cultural Industries (DLGSC) consultation on Act Reform (2017-2020)
- The Victorian Local Government Act 2020 and other State Acts
- The Parliament’s Select Committee Report into Local Government (late 2020)
- Western Australian Local Government Association (WALGA) Submissions
- Direct engagement with local governments
- Correspondence and complaints
- Miscellaneous past reports.
Consultation

Comments on these proposed reforms are invited. Comments can be made against each proposed reform in this document. For details on how to make a submission, please visit www.dlgsc.wa.gov.au/lgactreform.
## Theme 1: Early Intervention, Effective Regulation and Stronger Penalties

### CURRENT PROVISIONS

- The Act provides the means to regulate the conduct of local government staff and council members and sets out powers to scrutinise the affairs of local government. The Act provides certain limited powers to:
  - Suspend or dismiss councils
  - Appoint Commissioners
  - Suspend or, order remedial action (such as training) for individual councillors.
- The Act also provides the Director General with the power to:
  - Conduct Authorised Inquiries
  - Refer allegations of serious or recurrent breaches to the State Administrative Tribunal
  - Commence prosecution for an offence under the Act.
- Authorised Inquiries are a costly and a relatively slow response to significant issues. Authorised Inquiries are currently the only significant tool for addressing significant issues within a local government.
- The Panel Report, City of Perth Inquiry, and the Select Committee Report made various recommendations related to the establishment of a specific office for local government oversight.

### PROPOSED REFORMS

- It is proposed to establish a Chief Inspector of Local Government (the Inspector), supported by an Office of the Local Government Inspector (the Inspectorate).
- The Inspector would receive minor and serious complaints about elected members.
- The Inspector would oversee complaints relating to local government CEOs.
- Local Governments would still be responsible for dealing with minor behavioural complaints.
- The Inspector would have powers of a standing inquiry, able to investigate and intervene in any local government where potential issues are identified.
- The Inspector would have the authority to assess, triage, refer, investigate, or close complaints, having regard to various public interest criteria – considering laws such as the Corruption, Crime and Misconduct Act 2003, the Occupational Safety and Health Act 1984, the Building Act 2011, and other legislation.
- The Inspector would have powers to implement minor penalties for less serious breaches of the Act, with an appeal mechanism.
- The Inspector would also have the power to order a local government to address non-compliance with the Act or Regulations.
- The Inspector would be supported by a panel of Local Government Monitors (see item 1.2).
- The existing Local Government Standards Panel would be replaced with a new Conduct Panel (see item 1.3).
- Penalties for breaches to the Local Government Act and Regulations will be reviewed and are proposed to be generally strengthened (see item 1.4).

### COMMENTS

Supportive of proposed reforms 1.1 and 1.2.

Comment:
(a) Additional resourcing would be the preferred approach towards implementation by the Department, as opposed to a redirection of current resourcing.
(b) Towards achieving greater governance and best practice across the Western Australian local government sector, adequate resourcing to ensure all zones can be supported simultaneously.
(c) This should not be on a cost recovery basis. It would be unfair for lower tier local governments to have to cut services and asset renewal projects, to fund this reform.
(d) Inspectors should be suitably qualified with a background in law, investigations or other suitable field.
### 1.2 Local Government Monitors

- There are currently no legislative powers for the provision of monitors/ temporary advisors.
- The DLGSC provides support and advice to local governments, however there is no existing mechanism for pre-qualified, specialised assistance to manage complex cases.

- A panel of **Local Government Monitors** would be established.
- Monitors could be appointed by the Inspector to go into a local government and try to resolve problems.
- The purpose of Monitors would be to proactively fix problems, rather than to identify blame or collect evidence.
- Monitors would be qualified specialists, such as:
  - Experienced and respected former Mayors, Presidents, and CEOs - to act as mentors and facilitators
  - Dispute resolution experts - to address the breakdown of professional working relationships
  - Certified Practicing Accountants and other financial specialists - to assist with financial management and reporting issues
  - Governance specialists and lawyers - to assist councils resolve legal issues
  - HR and procurement experts - to help with processes like recruiting a CEO or undertaking a major land transaction.
- Only the Inspector would have the power to appoint Monitors.
- Local governments would be able to make requests to the Inspector to appoint Monitors for a specific purpose.

**Monitor Case Study 1 – Financial Management**

The Inspector receives information that a local government is not collecting rates correctly under the *Local Government Act 1995*. Upon initial review, the Inspector identifies that there may be a problem. The Inspector appoints a Monitor who specialises

<td></td>

</tr>
<tr>
<td>The Inspector appoints a Monitor to host mediation sessions between the councillors. The Monitor works with the councillors to address the dispute. Through regular meetings, the councillors agree to a working relationship based on the council’s code of conduct. After the mediation, the Monitor occasionally makes contact with both councillors to ensure there is a cordial working relationship between the councillors.</td>

- Any person who is subject to a complaint before the Conduct Panel would have the right to address the Conduct Panel before the Panel makes a decision. | (c) Panel Members must be suitably qualified in areas of law, investigations or an equivalent field and should not be former councillors. |

### 1.4 Review of Penalties

- There are currently limited penalties in the Act for certain types of non-compliance with the Local Government Act.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| Penalties for breaching the Local Government Act are proposed to be strengthened.  
- It is proposed that the suspension of councillors (for up to three months) is established as the main penalty where a councillor breaches the Local Government Act or Regulations on more than one occasion.  
- Councillors who are disqualified would not be eligible for sitting fees or allowances. They will also not be able to attend meetings, or use their official office (such as their title or council email address).  
- It is proposed that a councillor who is suspended multiple times may become disqualified from office.  
- Councillors who do not complete mandatory training within a certain timeframe will also not be able to receive sitting fees or allowances. | Supportive of proposed reform 1.4  
Comment:  
(a) Provisions within the LG Act to address individual inappropriate behaviour as opposed to the whole Council collectively, would be more appropriate and timely, with a better short and long term effect for the district.  
(b) It is suggested that the base number to determine an Absolute Majority be reduced by one in the instance that a councillor is suspended, so as their behaviour does not have further and longer lasting impacts on the local government. |

### 1.5 Rapid Red Card Resolutions

- Currently, local governments have different local laws and standing orders that govern the way meetings run. Presiding members (Mayors and Presidents) are reliant on the powers provided in the local government standing orders local laws.

<p>| | |</p>
<table>

</table>
| It is proposed that Standing Orders are made consistent across Western Australia (see item 2.6). Published recordings of all meetings would also become standard (item 3.1).  
- It is proposed that Presiding Members have the power to “red card” any attendee (including councillors) who | Not supportive of proposed reform 1.5  
Comment:  
(a) Additional resourcing would be required. |
### CURRENT PROVISIONS
- Differences between local governments is a source of confusion about the powers that presiding members have to deal with disruptive behaviours at council meetings.
- Disruptive behaviour at council meetings is a very common cause of complaints. Having the Presiding Member be able to deal with these problems should more quickly resolve problems that occur at council meetings.

### PROPOSED REFORMS
- Unreasonably and repeatedly interrupt council meetings. This power would:
  - Require the Presiding Member to issue a clear first warning
  - If the disruptions continue, the Presiding Member will have the power to "red card" that person, who must be silent for the rest of the meeting. A councillor issued with a red card will still vote, but must not speak or move motions
  - If the person continues to be disruptive, the Presiding Member can instruct that they leave the meeting.
- Any Presiding Member who uses the "red card" or ejection power will be required to notify the Inspector.
- Where an elected member refuses to comply with an instruction to be silent or leave, or where it can be demonstrated that the presiding member has not followed the law in using these powers, penalties can be imposed through a review by the Inspector.

### COMMENTS
- (b) This process is unlikely to be effective work and should continue to be addressed through the Standing Orders.

### 1.6 Vexatious Complaint Referrals
- No current provisions.
- The Act already provides a requirement for Public Question Time at council meetings.

### Proposed Reforms
- Local governments already have a general responsibility to provide ratepayers and members of the public with assistance in responding to queries about the local government’s operations. Local governments should resolve queries and complaints in a respectful, transparent and equitable manner.
- Unfortunately, local government resources can become unreasonably diverted when a person makes repeated vexatious queries, especially after a local government has already provided a substantial response to the person’s query.
- It is proposed that if a person makes repeated complaints to a local government CEO that are vexatious, the CEO will have the power to refer that person’s complaints to the

### Supportive of proposed reform 1.6 Comment
(a) Independently determining vexatious complaints separates out the local government from the decision making process. Procedural fairness and appeal rights must be in place for alleged.
Local Government Reform – Consultation on Proposed Reforms

1.7 Minor Other Reforms

- Other minor reforms are being considered to enhance the oversight of local government.
- Ministerial Circulars have traditionally been used to provide guidance to the local government sector.
- Potential other reforms to strengthen guidance for local governments are being considered.
- For example, one option being considered is the potential use of sector-wide guidance notices. Guidance notices could be published by the Minister or Inspector, to give specific direction for how local governments should meet the requirements of the Local Government Act and Regulations. For instance, the Minister could publish guidance notices to clarify the process for how potential conflicts of interests should be managed.
- It is also proposed (see item 1.1) that the Inspector has the power to issue notices to individual local governments to require them to rectify non-compliance with the Act or Regulations.

Comment for 1.7 Minor Other Reforms

Supportive of reform 1.7

Consistent and clear advice in the form of Ministerial or Department Circulars to all Local Governments will improve awareness across the sector of initiatives, programs and compliance obligations.

| Local laws are required to be reviewed every eight years. The review of local laws (especially when they are standard) has been identified as a burden for the sector. Inconsistency between local laws is frustrating for residents and business stakeholders. | It is proposed that local laws would only need to be reviewed by the local government every 15 years. Local laws not reviewed in the timeframe would lapse, meaning that old laws will be automatically removed and no longer applicable. ### 3.5 Chief Executive Officer Key Performance Indicators (KPIs) be Published

- It is a requirement of the *Local Government Act 1995* that CEO performance reviews are conducted annually.  
- The Model Standards for CEO recruitment and selection, performance review and termination require that a local government must review the performance of the CEO against contractual performance criteria.  
- Additional performance criteria can be used for performance review by agreement between both parties.

- To provide for minimum transparency, it is proposed to mandate that the KPIs agreed as performance metrics for CEOs:  
  - Be published in council meeting minutes as soon as they are agreed prior to (before the start of the annual period)  
  - The KPIs and the results be published in the minutes of the performance review meeting (at the end of the period)  
  - The CEO has a right to provide written comments to be published alongside the KPIs and results to provide context as may be appropriate (for instance, the impact of events in that year that may have influenced the results against KPIs).

### 4.4 Public Vote to Elect the Mayor and President

- The Act currently allows local governments to have the Presiding Member (the Mayor or President) elected either:
  - by the electors of the district through a public vote; or
  - by the council as a resolution at a council meeting.

- Mayors and Presidents of all local governments perform an important public leadership role within their local communities.
  - Band 1 and 2 local governments generally have larger councils than those in bands 3 and 4.
  - Accordingly, it is proposed that the Mayor or President for all band 1 and 2 councils is to be elected through a vote of the electors of the district. Councils in bands 3 and 4 would retain the current system.
  - A number of Band 1 and Band 2 councils have already moved towards Public Vote to Elect the Mayor and President in recent years, including City of Stirling and City of Rockingham.

Not supportive of proposed reform 4.4
Comment:
(a) Mayors and Presidents perform the highest leadership role in the district. To perform well in this role, necessitates good working relationships especially with fellow Councillors. This is best established through a vote by Councillor as to who would best represent the broader group of Councillors.
(b) Popular voting is associated with party politics which does not benefit local government.
(c) Conflicts between popularly elected Mayors or Presidents and a majority of their Councillors create a disconnect and can result in undue instability and dysfunction, where the popularly elected Mayor or President does not require the confidence of their Councillors.
(d) For the purposes of cohesion the Council seeks the ability to elect the President. Where the Mayor or President is elected by their peers, there is greater teamwork and cohesion.
### 4.5 Tiered Limits on the Number of Councillors

<tr>
<td>(a) Local government districts vary significantly across the State. (b) Limiting the number of elected members may impede representation across a diverse number of land use and community demographics, particularly in a District such as East Pilbara. (c) Limiting the number of elected members favours better resourced candidates from larger population centres at the expense of remote communities. (d) Greater consistency within the understanding of governance and its application is preferred to one-size fits all government. - For a population of up to 5,000 – five councillors (including the President)
- population of between 5,000 and 75,000 – five to nine councillors (including the Mayor/President)
- population of above 75,000 – nine to fifteen councillors (including Mayor).
### 4.6 No Wards for Small Councils (Band 3 and 4 Councils only)

- A local government can make an application to be divided into wards, with councillors elected to those wards.
- Only about 10% of band 3 and 4 local governments currently have wards.
- It is proposed that the use of wards for councils in bands 3 and 4 is abolished.
- Wards increase the complexity of elections, as this requires multiple versions of ballot papers to be prepared for a local government’s election.
- In smaller local governments, the population of wards can be very small.
- These wards often have councillors elected unopposed, or elect a councillor with a very small number of votes. Some local governments have ward councillors elected with less than 50 votes.
- There has been a trend in smaller local governments looking to reduce the use of wards, with only 10 councils in bands 3 and 4 still having wards.

### 4.7 Electoral Reform – Clear Lease Requirements for Candidate and Voter Eligibility

- A person with a lease in a local government district is eligible to nominate as a candidate in that district.
- A person with a lease in a local government district is eligible to apply to vote in that district.
- The City of Perth Inquiry Report identified a number of instances where dubious lease arrangements put to question the validity of candidates in local government elections, and subsequently their legitimacy as councillors.
- Reforms are proposed to prevent the use of “sham leases” in council elections. Sham leases are where a person creates a lease only to be able to vote or run as a candidate for council.
- The City of Perth Inquiry Report identified sham leases as an issue.
- Electoral rules are proposed to be strengthened:
  - A minimum lease period of 12 months will be required for anyone to register a person to vote or run for council.
  - Home based businesses will not be eligible to register a person to vote or run for council, because any residents are already the eligible voter(s) for that address.
  - Clarifying the minimum criteria for leases eligible to register a person to vote or run for council.

4.8 Reform of Candidate Profiles

- Candidate profiles can only be 800 characters, including spaces. This is equivalent to approximately 150 words.
- Further work will be undertaken to evaluate how longer candidate profiles could be accommodated.
- Longer candidate profiles would provide more information to electors, potentially through publishing profiles online.

4.9 Minor Other Electoral Reforms

- Other minor reforms are proposed to improve local government elections.
- Minor other electoral reforms are proposed to include:
  - The introduction of standard processes for vote recounts if there is a very small margin between candidates (e.g. where there is a margin of less than 10 votes a recount will always be required)
  - The introduction of more specific rules concerning local government council candidates' use of electoral rolls.

  Comment:
  (a) Additional wording would clarify the expectations of roles and requirements to be met.
  (b) Further opportunities towards drafting of the wording to be used would be welcomed.
  (c) The LG Act already makes provision for some of the example considerations listed.

- The Local Government Act 1995 requires local governments to employ a CEO to run the local government administration and implement the decisions of council.
- To provide greater clarity, it is proposed to amend the Act to specify the roles and responsibilities of all local government CEOs.
### Current Requirements

- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the CEO of a local government is responsible for:
  - Coordinating the professional advice and assistance necessary for all elected members to enable the council to perform its decision-making functions
  - Facilitating the implementation of council decisions
  - Ensuring functions and decisions lawfully delegated by council are managed prudently on behalf of the council
  - Managing the effective delivery of the services, operations, initiatives and functions of the local government determined by the council
  - Providing timely and accurate information and advice to all councillors in line with the Council Communications Agreement (see item 5.3)
  - Overseeing the compliance of the operations of the local government with State and Federal legislation on behalf of the council
  - Implementing and maintaining systems to enable effective planning, management, and reporting on behalf of the council.

---

### 5.3 Council Communication Agreements

- The Act provides that council and committee members can have access to any information held by the local government that is relevant to the performance of the member in their functions.
- The availability of information is sometimes a source of conflict within local governments.

- In State Government, there are written Communication Agreements between Ministers and agencies that set standards for how information and advice will be provided.
- It is proposed that local governments will need to have Council Communications Agreements between the council and the CEO.
- These Council Communication Agreements would clearly specify the information that is to be provided to councillors, how it will be provided, and the timeframes for when it will be provided.

### 5.4 Local Governments May Pay Superannuation Contributions for Elected Members

- Elected members are eligible to receive sitting fees or an annual allowance.
- Superannuation is not paid to elected members. However, councillors can currently divert part of their allowances to a superannuation fund.
- Councils should be reflective and representative of the people living within the district. Local governments should be empowered to remove any barriers to the participation of gender and age diverse people on councils.

- It is proposed that local governments should be able to decide, through a vote of council, to pay superannuation contributions for elected members. These contributions would be additional to existing allowances.
- Superannuation is widely recognised as an important entitlement to provide long term financial security.
- Other states have already moved to allow councils to make superannuation contributions for councillors.
- Allowing council to provide superannuation is important part of encouraging equality for people represented on council – particularly for women and younger people.
- Providing superannuation to councillors recognises that the commitment to elected office can reduce a person’s opportunity to undertake employment and earn superannuation contributions.

Supportive of proposed reform 5.4
Comment:
(a) The payment of superannuation (in some form) is supported, as this would bring elected member remuneration in line with that provided in New South Wales and Queensland, with a cash payment of equivalent being paid in Victoria.
(b) This would increase the burden on ratepayers.

### 5.6 Standardised Election Caretaker period

- There is currently no requirement for a formal caretaker period, with individual councils operating under their own policies and procedures.
- This is commonly a point of public confusion.

- A statewide caretaker period for local governments is proposed.
- All local governments across the State would have the same clearly defined election period, during which:
  - Councils do not make major decisions with criteria to be developed defining ‘major’
  - Incumbent councillors who nominate for re-election are not to represent the local government, act on behalf of the council, or use local government resources to support campaigning activities.
  - There are consistent election conduct rules for all candidates.

Supportive but limited to strategic decisions, major expenditures and use of resources by councillors seeking re-election.

### Theme 6: Improved Financial Management and Reporting

<table>
<thead>
<tr>
<th>CURRENT REQUIREMENTS</th>
<th>PROPOSED REFORMS</th>
<th>COMMENTS</th>
</tr>
</thead>
</table>
| 6.1 Model Financial Statements and Tiered Financial Reporting | The Minister strongly believes in transparency and accountability in local government. The public rightly expects the highest standards of integrity, good governance, and prudent financial management in local government. It is critically important that clear information about the financial position of local governments is openly available to ratepayers. Financial information also supports community decision-making about local government services and projects. Local governments differ significantly in the complexity of their operations. Smaller local governments generally have much less operating complexity than larger local governments. The Office of the Auditor General has identified opportunities to improve financial reporting, to make statements clearer, and reduce unnecessary complexity. Recognising the difference in the complexity of smaller and larger local governments, it is proposed that financial reporting requirements should be tiered – meaning that larger local governments will have greater financial reporting requirements than smaller local governments. It is proposed to establish standard templates for Annual Financial Statements for band 1 and 2 councils, and simpler, clearer financial statements for band 3 and 4. Online Registers, updated quarterly (see item 3.4), would provide faster and greater transparency than current annual reports. Standard templates will be published for use by local governments. | Supportive of proposed reform 6.1 Comment:  
(a) The Shire uses the Moore model financial templates for both budgets and annual financial statements.  
(b) This creates common knowledge and understanding across local governments.  
(c) Creates consistency in approach which provides greater transparency, comparison and collaboration. |
### Current Requirements

- Requirements for plans are outlined in the Local Government Financial Management and Administration Regulations.
- There is also the Integrated Planning and Reporting (IPR) framework.
- While many councils successfully apply IPR to their budgeting and reporting, IPR may seem complicated or difficult, especially for smaller local governments.

### Proposed Reforms

- **Simpler Strategic and Financial Planning** (item 6.2) would also improve the budgeting process.

### Comments

**6.2 Simplify Strategic and Financial Planning**

- Having clear information about the finances of local government is an important part of enabling informed public and ratepayer engagement and input to decision-making. The framework for financial planning should be based around information being clear, transparent, and easy to understand for all ratepayers and members of the public. In order to provide more consistency and clarity across the State, it is proposed that greater use of templates is introduced to make planning and reporting clearer and simpler, providing greater transparency for ratepayers.
- Local governments would be required to adopt a standard set of plans, and there will be templates published by the DLGSC for use or adaptation by local governments.
- It is proposed that the plans that are required are:
  - Simplified **Council Plans** that replace existing Strategic Community Plans and set high-level objectives, with a new plan required at least every eight years. These will be short-form plans, with a template available from the DLGSC.
  - Simplified **Asset Management Plans** to consistently forecast costs of maintaining the local government’s assets. A new plan will be required at least every ten years, though local governments should update the plan regularly if the local government gains or disposes of major assets (e.g. land, buildings, or roads). A template will be provided, and methods of valuations will be simplified to reduce red tape.
  - Simplified **Long Term Financial Plans** will outline any long term financial management and sustainability.

*Supportive of proposed reform 6.2*

*Comment:*

(a) A standard approach and use of templates towards an IPR framework, avoids duplicated efforts and resourcing.
(b) Creates consistency in approach provides greater transparency, comparison and collaboration.
(c) Council has already supported the introduction Service Planning for the Shire. Phase 2 is currently in scope for the Shire’s IPR renewal project, furthering the use of service planning.
issues, and any investments and debts. A template will be provided, and these plans will be required to be reviewed in detail at least every four years

- A new **Rates and Revenue Policy** (see item 6.3) that identifies the approximate value of rates that will need to be collected in future years (referencing the Asset Management Plan and Long Term Financial Plan) – providing a forecast to ratepayers (updated at least every four years)
- The use of simple, one-page **Service Proposals** and **Project Proposals** that outline what proposed services or initiatives will cost, to be made available through council meetings. These will become **Service Plans** and **Project Plans** added to the yearly budget if approved by council. This provides clear transparency for what the functions and initiatives of the local government cost to deliver. Templates will be available for use by local governments.

### 6.3 Rates and Revenue Policy

<p>| Local governments are not required to have a rates and revenue policy. Some councils defer rate rises, resulting in the eventual need to drastically raise rates to cover unavoidable costs – especially for the repair of infrastructure. | The Rates and Revenue Policy is proposed to increase transparency for ratepayers by linking rates to basic operating costs and the minimum costs for maintaining essential infrastructure. A Rates and Revenue Policy would be required to provide ratepayers with a forecast of future costs of providing local government services. The Policy would need to reflect the Asset Management Plan and the Long Term Financial Plan (see item 6.2), providing a forecast of what rates would need to be, to cover unavoidable costs. A template would be published for use or adaption by all local governments. |</p>

### 6.6 Audit Committees
Local Government Reform – Consultation on Proposed Reforms

- Local governments must establish an Audit Committee that has three or more persons, with the majority to be council members.
- The Audit Committee is to guide and assist the local government in carrying out the local government’s functions in relation to audits conducted under the Act.
- The Panel Report identified that Audit Committees should be expanded, including to provide improved risk management.

- To ensure independent oversight, it is proposed the Chair of any Audit Committee be required to be an independent person who is not on council or an employee of the local government.
- Audit Committees would also need to consider proactive risk management.
- To reduce costs, it is proposed that local governments should be able to establish shared Regional Audit Committees.
- The Committees would be able to include council members but would be required to include a majority of independent members and an independent chairperson.

Supportive of proposed reform 6.6 along with reforms to LGA s5.100 Payments for certain committee members

Comment:
(a) Council’s terms of reference for its Audit Committee already include risk management along with governance oversight.
(b) External expertise and experience in these areas may benefit Council through collaborative oversight.
(c) The LGA 1995 expressly provides that a person who is a committee member but is not a council member or an employee is not to be paid a fee for attending any meeting.
(d) Professional advice is foremost provided as a fee for service.
(e) this recommendation would likely increase the burden on ratepayers.
(f) Council would support the NSW Model that does not permit the Mayor or President to sit as a voting member of the Audit Committee. (This was introduced a few years ago on the basis that the mayor usually works quite closely with the administration, which may create a perception of bias their view of matters examined by the Audit Committee).
(g) Require further details of the proposal for Regional Committees
