Local Government Reform – Summary of Proposed Reforms
Local government benefits all Western Australians. It is critical that local government works with:

- a culture of openness to innovation and change
- continuous focus on the effective delivery of services
- respectful and constructive policy debate and democratic decision-making
- an environment of transparency and accountability to ensure effective public engagement on important community decisions.

Since first coming to office in 2017, the McGowan Government has already progressed reforms to improve specific aspects of local government performance. This includes new laws that work to improve transparency, cut red tape, and support jobs growth and economic development - ensuring that local government works for the benefit of local communities.

Based on the significant volume of research and consultation undertaken over the past five years, the Minister for Local Government has now announced the most significant package of major reforms to local government in Western Australia since the Local Government Act 1995 was passed more than 25 years ago. The package is based on six major themes:

1. Earlier intervention, effective regulation and stronger penalties
2. Reducing red tape, increasing consistency and simplicity
3. Greater transparency and accountability
4. Stronger local democracy and community engagement
5. Clear roles and responsibilities
6. Improved financial management and reporting.

A large focus on the new reform is oversight and intervention where there are significant problems arising within a local government. The introduction of new intermediate powers for intervention will increase the number of tools available to more quickly address problems and dysfunction within local governments. The proposed system for early intervention has been developed based on similar legislation in place in other jurisdictions, including Victoria and Queensland.

This will deliver significant benefits for small business, residents and ratepayers, industry, elected members and professionals working in the sector.

**Local Government Reforms**

These reforms are based on extensive consultation undertaken over the last five years, and have been developed considering:

- The Local Government Review Panel Final Report (mid 2020)
- The City of Perth Inquiry Report (mid 2020)
- Department of Local Government, Sport and Cultural Industries (DLGSC) consultation on Act Reform (2017-2020)
- The Victorian Local Government Act 2020 and other State Acts
- The Parliament’s Select Committee Report into Local Government (late 2020)
- Western Australian Local Government Association (WALGA) Submissions
- Direct engagement with local governments
- Correspondence and complaints
- Miscellaneous past reports.

| - The Act provides the means to regulate the conduct of local government staff and council members and sets out powers to scrutinise the affairs of local government. The Act provides certain limited powers to:  
  - Suspend or dismiss councils  
  - Appoint Commissioners  
  - Suspend or, order remedial action (such as training) for individual councillors.  
- The Act also provides the Director General with the power to:  
  - Conduct Authorised Inquiries  
  - Refer allegations of serious or recurrent breaches to the State Administrative Tribunal  
  - Commence prosecution for an offence under the Act.  
- Authorised Inquiries are a costly and a relatively slow response to significant issues. Authorised Inquiries are currently the only significant tool for addressing significant issues within a local government.  
- The Panel Report, City of Perth Inquiry, and the Select Committee Report made various recommendations related to the establishment of a specific office for local government oversight. | - It is proposed to establish a Chief Inspector of Local Government (the **Inspector**), supported by an Office of the Local Government Inspector (the **Inspectorate**).  
- The Inspector would receive minor and serious complaints about elected members.  
- The Inspector would oversee complaints relating to local government CEOs.  
- Local Governments would still be responsible for dealing with minor behavioural complaints.  
- The Inspector would have powers of a standing inquiry, able to investigate and intervene in any local government where potential issues are identified.  
- The Inspector would have the authority to assess, triage, refer, investigate, or close complaints, having regard to various public interest criteria – considering laws such as the Corruption, Crime and Misconduct Act 2003, the Occupational Safety and Health Act 1984, the Building Act 2011, and other legislation.  
- The Inspector would have powers to implement minor penalties for less serious breaches of the Act, with an appeal mechanism.  
- The Inspector would also have the power to order a local government to address non-compliance with the Act or Regulations.  
- The Inspector would be supported by a panel of **Local Government Monitors** (see item 1.2).  
- The existing Local Government Standards Panel would be replaced with a new **Conduct Panel** (see item 1.3).  
- **Penalties** for breaches to the Local Government Act and Regulations will be reviewed and are proposed to be generally strengthened (see item 1.4). | - Is the term “Inspector” the most appropriate terminology, perhaps “Regulator/Commissioner” is more appropriate.  
- Alternatively, this could be a role/function set up within the DLGSC.  
- How does this fit with the CCC, there would need to clarity around the differences of the two organisations and how they intertwine?  
- Would also need to include a clear process/protocol how LGs could seek advice or be able to approach this position to seek clarification and guidance on processes that may require intervention. |

### 1.2 Local Government Monitors

- There are currently no legislative powers for the provision of monitors/ temporary advisors.
- The DLGSC provides support and advice to local governments, however there is no existing mechanism for pre-qualified, specialised assistance to manage complex cases.

- A panel of **Local Government Monitors** would be established.
  - Monitors could be appointed by the Inspector to go into a local government and try to resolve problems.
  - The purpose of Monitors would be to proactively fix problems, rather than to identify blame or collect evidence.
  - Monitors would be qualified specialists, such as:
    - Experienced and respected former Mayors, Presidents, and CEOs - to act as mentors and facilitators
    - Dispute resolution experts - to address the breakdown of professional working relationships
    - Certified Practicing Accountants and other financial specialists - to assist with financial management and reporting issues
    - Governance specialists and lawyers - to assist councils resolve legal issues
    - HR and procurement experts - to help with processes like recruiting a CEO or undertaking a major land transaction.
  - Only the Inspector would have the power to appoint Monitors.
  - Local governments would be able to make requests to the Inspector to appoint Monitors for a specific purpose.

**Monitor Case Study 1 – Financial Management**

The Inspector receives information that a local government is not collecting rates correctly under the *Local Government Act 1995*. Upon initial review, the Inspector identifies that there may be a problem. The Inspector appoints a Monitor who specialises in...

<td>in financial management in local government. The Monitor visits the local government and identifies that the system used to manage rates is not correctly issuing rates notices. The Monitor works with the local government to rectify the error, and issue corrections to impacted ratepayers.</td>
<td><strong>Monitor Case Study 2 – Dispute Resolution</strong> The Inspector receives a complaint from one councillor that another councillor is repeatedly publishing derogatory personal attacks against another councillor on social media, and that the issue has not been able to be resolved at the local government level. The Inspector identifies that there has been a relationship breakdown between the two councillors due to a disagreement on council. The Inspector appoints a Monitor to host mediation sessions between the councillors. The Monitor works with the councillors to address the dispute. Through regular meetings, the councillors agree to a working relationship based on the council’s code of conduct. After the mediation, the Monitor occasionally makes contact with both councillors to ensure there is a cordial working relationship between the councillors.</td>

### 1.3 Conduct Panel

- The Local Government Standards Panel was established in 2007 to resolve minor breach complaints relatively quickly and provide the sector with guidance and benchmarks about acceptable standards of behaviour.
- Currently, the Panel makes findings about alleged breaches based on written submissions.
- The City of Perth Inquiry report made various recommendations that functions of
- The Standards Panel is proposed to be replaced with a new Local Government **Conduct Panel**.
- The Conduct Panel would be comprised of suitably qualified and experienced professionals. Sitting councillors will not be eligible to serve on the Conduct Panel.
- The Inspector would provide evidence to the Conduct Panel for adjudication.
- The Conduct Panel would have powers to impose stronger penalties – potentially including being able to suspend
- This makes sense on a number of fronts as it becomes independent of those currently within the sector making comment or decisions on their colleagues within the sector.
- Most Councillors are already busy and removing them from this role would remove the burden of additional

- Any person who is subject to a complaint before the Conduct Panel would have the right to address the Conduct Panel before the Panel makes a decision. | responsibilities. |

1.4 Review of Penalties

- There are currently limited penalties in the Act for certain types of non-compliance with the Local Government Act.
- Penalties for breaching the Local Government Act are proposed to be strengthened.  
- It is proposed that the suspension of councillors (for up to three months) is established as the main penalty where a councillor breaches the Local Government Act or Regulations on more than one occasion.  
- Councillors who are disqualified would not be eligible for sitting fees or allowances. They will also not be able to attend meetings, or use their official office (such as their title or council email address).  
- It is proposed that a councillor who is suspended multiple times may become disqualified from office.  
- Councillors who do not complete mandatory training within a certain timeframe will also not be able to receive sitting fees or allowances.

- This makes sense assuming the method to determine breaches is robust (ie decision of the Conduct Panel).  
- Under the proposal Councillors who do not complete mandatory training within a certain timeframe will also not be able to receive sitting fees or allowances, perhaps the Mandatory Training process can be streamlined for Bands 3 and 4, reduce the “assessment component” and allow sessions such as the recently run WALGA Introduction for New Councillors to count for training, rather than doubling.

1.5 Rapid Red Card Resolutions
**CURRENT PROVISIONS**

- Currently, local governments have different local laws and standing orders that govern the way meetings run. Presiding members (Mayors and Presidents) are reliant on the powers provided in the local government standing orders local laws.
- Differences between local governments is a source of confusion about the powers that presiding members have to deal with disruptive behaviours at council meetings.
- Disruptive behaviour at council meetings is a very common cause of complaints. Having the Presiding Member be able to deal with these problems should more quickly resolve problems that occur at council meetings.

**PROPOSED REFORMS**

- It is proposed that Standing Orders are made consistent across Western Australia (see item 2.6). Published recordings of all meetings would also become standard (item 3.1).
- It is proposed that Presiding Members have the power to "red card" any attendee (including councillors) who unreasonably and repeatedly interrupt council meetings. This power would:
  - Require the Presiding Member to issue a clear first warning
  - If the disruptions continue, the Presiding Member will have the power to "red card" that person, who must be silent for the rest of the meeting. A councillor issued with a red card will still vote, but must not speak or move motions
  - If the person continues to be disruptive, the Presiding Member can instruct that they leave the meeting.
- Any Presiding Member who uses the "red card" or ejection power will be required to notify the Inspector.
- Where an elected member refuses to comply with an instruction to be silent or leave, or where it can be demonstrated that the presiding member has not followed the law in using these powers, penalties can be imposed through a review by the Inspector.

**COMMENTS**

- Standing Orders as a document is more than just Meeting Procedures.
- Currently the Meeting Procedures within the Standing Orders if followed to the letter of the law prevents wider discussion, as it follows a for and against speaking process which can stifle the discussion/debate to get to an appropriate outcome.
- Red Card system sounds good in principle, but the specific process would need to be clear for all parties.

1.6 Vexatious Complaint Referrals

- No current provisions.
- The Act already provides a requirement for Public Question Time at council meetings.
- Local governments already have a general responsibility to provide ratepayers and members of the public with assistance in responding to queries about the local government’s operations. Local governments should resolve queries and complaints in a respectful, transparent and equitable manner.
- Unfortunately, local government resources can become unreasonably diverted when a person makes repeated vexatious complaints.
- It is a good suggest that if a person makes repeated complaints to a local government CEO that are vexatious, the CEO will have the power to refer that person’s complaints to the Inspectorate, which after
### 1.7 Minor Other Reforms

- Other minor reforms are being considered to enhance the oversight of local government.
- Ministerial Circulars have traditionally been used to provide guidance to the local government sector.

<td></td>
</tr>
</tbody>
</table>

- Potential other reforms to strengthen guidance for local governments are being considered.
- For example, one option being considered is the potential use of sector-wide guidance notices. Guidance notices could be published by the Minister or Inspector, to give specific direction for how local governments should meet the requirements of the Local Government Act and Regulations. For instance, the Minister could publish guidance notices to clarify the process for how potential conflicts of interests should be managed.
- It is also proposed (see item 1.1) that the Inspector has the power to issue notices to individual local governments to require them to rectify non-compliance with the Act or Regulations.

- The potential use of sector-wide guidance notices. Guidance notices could be published by the Minister or Inspector, to give specific direction for how local governments should meet the requirements of the Local Government Act and Regulations is good in principal, but this should be undertaken by the DLGSC if they had appropriate resources, knowledge and skills, which have been removed in recent years.
- Such guidance notes should be developed in consultation with the sector and WALGA who probably currently have more knowledge and understanding that the Inspector or DLGSC.

| • The Act does not currently include specific provisions to allow for certain types of resource sharing – especially for sharing CEOs.  
• Regional local governments would benefit from having clearer mechanisms for voluntary resource-sharing. |
| • Amendments are proposed to encourage and enable local governments, especially smaller regional local governments, to share resources, including Chief Executive Officers and senior employees.  
• Local governments in bands 2, 3 or 4 would be able to appoint a shared CEO at up to two salary bands above the highest band. For example, a band 3 and a band 4 council sharing a CEO could remunerate to the level of band 1. |
| • Amendments are proposed to encourage and enable local governments, especially smaller regional local governments, to share resources makes sense so long as the guidelines are clear and simple and it doesn’t get complicated via the OAG. |
| **2.2 Standardisation of Crossovers** |
| • Approvals and standards for crossovers (the section of driveways that run between the kerb and private property) are inconsistent between local government areas, often with very minor differences.  
• This can create confusion and complexity for homeowners and small businesses in the construction sector. |
| • It is proposed to amend the *Local Government (Uniform Local Provisions) Regulations 1996* to standardise the process for approving crossovers for residential properties and residential developments on local roads.  
• A Crossover Working Group has provided preliminary advice to the Minister and DLGSC to inform this.  
• The DLGSC will work with the sector to develop standardised design and construction standards. |
| • It is proposed to amend the *Local Government (Uniform Local Provisions) Regulations 1996* to standardise the process for approving crossovers for residential properties and residential developments on local roads, this sounds good in theory, but each LG often has its own standards and site conditions.  
• Perhaps IPWEA could be engaged in the process to develop standardised design and construction standards, as they have a good document that has information for civil works, sub divisions, drainage, roads etc. |

- Several local governments already use platforms such as YouTube, Microsoft Teams, and Vimeo to stream and publish meeting recordings.
- Limited exceptions would be made for meetings held outside the ordinary council chambers, where audio recordings may be used.
- Recognising their generally smaller scale, typically smaller operating budget, and potential to be in more remote locations, band 3 and 4 local governments would be required to record and publish audio recordings, at a minimum. These local governments would still be encouraged to livestream or video record meetings.
- All council meeting recordings would need to be published at the same time as the meeting minutes. Recordings of all confidential items would also need to be submitted to the DLGSC for archiving.

## 3.2 Recording All Votes in Council Minutes

### CURRENT REQUIREMENTS
- A local government is only required to record which councillor voted for or against a motion in the minutes of that meeting if a request is made by an elected member at the time of the resolution during the meeting.
- The existing provision does not mandate transparency.

### PROPOSED REFORMS
- To support the transparency of decision-making by councillors, it is proposed that the individual votes cast by all councillors for all council resolutions would be required to be published in the council minutes, and identify those for, against, on leave, absent or who left the chamber.
- Regulations would prescribe how votes are to be consistently minuted.

### COMMENTS
- It makes sense that the individual votes cast by all councillors for all council resolutions would be required to be published in the council minutes, and identify those for, against, on leave, absent or who left the chamber.

## 3.3 Clearer Guidance for Meeting Items that may be Confidential

### CURRENT REQUIREMENTS
- The Act currently provides broad definitions of what type of matters may be discussed as a confidential item.
- There is limited potential for review of issues managed as confidential items under the current legislation.

### PROPOSED REFORMS
- Recognising the importance of open and transparent decision-making, it is considered that confidential meetings and confidential meeting items should only be used in limited, specific circumstances.
- It is proposed to make the Act more specific in prescribing items that may be confidential, and items that should remain open to the public.
- Items not prescribed as being confidential could still be held as confidential items only with the prior written consent of the Inspector.
- All confidential items would be required to be audio recorded, with those recordings submitted to the DLGSC.

### COMMENTS
- It makes sense to make the Act more specific in prescribing items that may be confidential, and items that should remain open to the public.
- As above Kulin Shire Council does not support digital recordings.

## 3.4 Additional Online Registers

### CURRENT REQUIREMENTS
- Local governments are required to provide information to the community through annual reports, council minutes and the publication of information online.
- Consistent online publication of information can substitute for certain material in annual reports.

### PROPOSED REFORMS
- It is proposed to require local governments to report specific information in online registers on the local government’s website. Regulations would prescribe the information to be included.
- The following new registers, each updated quarterly, are proposed:

### COMMENTS
- Requiring local governments to report specific information in online registers on the local government’s website, would be fine so long as there is a simple and consistent template / platform.
### CURRENT REQUIREMENTS
- Consistency in online reporting across the sector will provide ratepayers with better information.
- These registers supplement the simplification of financial statements in Theme 6.

### PROPOSED REFORMS
- **Lease Register** to capture information about the leases the local government is party to (either as lessor or lessee)
- **Community Grants Register** to outline all grants and funding provided by the local government
- **Interests Disclosure Register** which collates all disclosures made by elected members about their interests related to matters considered by council
- **Applicant Contribution Register** accounting for funds collected from applicant contributions, such as cash-in-lieu for public open space and car parking
- **Contracts Register** that discloses all contracts above $100,000.

### COMMENTS

3.5 Chief Executive Officer Key Performance Indicators (KPIs) be Published

- It is a requirement of the Local Government Act 1995 that CEO performance reviews are conducted annually.
- The Model Standards for CEO recruitment and selection, performance review and termination require that a local government must review the performance of the CEO against contractual performance criteria.
- Additional performance criteria can be used for performance review by agreement between both parties.

- To provide for minimum transparency, it is proposed to mandate that the KPIs agreed as performance metrics for CEOs:
  - Be published in council meeting minutes as soon as they are agreed prior to (before the start of the annual period)
  - The KPIs and the results be published in the minutes of the performance review meeting (at the end of the period)
  - The CEO has a right to provide written comments to be published alongside the KPIs and results to provide context as may be appropriate (for instance, the impact of events in that year that may have influenced the results against KPIs).

- Mandating and making publicly available the KPIs agreed as performance metrics for CEOs is fine so long as that is the focus of Council during the review and reporting process.
- Review and reporting often entails a general review of the CEO’s Position Description which is wider than specific KPIs, how is this review process proposed to be reported?

- Preferential voting better captures the precise intentions of voters and as a result may be regarded as a fairer and more representative system. Voters have more specific choice.

### Proposed Reforms

- In preferential voting, voters number candidates in order of their preferences.
- Preferential voting is used in State and Federal elections in Western Australia (and in other states). This provides voters with more choice and control over who they elect.
- All other states use a form of preferential voting for local government.

### Comments

- continue particularly for Bands 3 and 4, especially if voting not compulsory.
- Voters still have a choice and control over who they vote for and they can actually use this method to vote strategically if they wish.

#### 4.4 Public Vote to Elect the Mayor and President

- The Act currently allows local governments to have the Presiding Member (the Mayor or President) elected either:
  - by the electors of the district through a public vote; or
  - by the council as a resolution at a council meeting.
- Mayors and Presidents of all local governments perform an important public leadership role within their local communities.
- Band 1 and 2 local governments generally have larger councils than those in bands 3 and 4.
- Accordingly, it is proposed that the Mayor or President for all band 1 and 2 councils is to be elected through a vote of the electors of the district. Councils in bands 3 and 4 would retain the current system.
- A number of Band 1 and Band 2 councils have already moved towards Public Vote to Elect the Mayor and President in recent years, including City of Stirling and City of Rockingham.

### Comments

- Councils in bands 3 and 4 should retain the current system.

#### 4.5 Tiered Limits on the Number of Councillors

- The number of councillors (between 5-15 councillors) is decided by each local government, reviewed by the Local Government Advisory Board, and if approved by the Minister.
- It is proposed to limit the number of councillors based on the population of the entire local government.
- Some smaller local governments have already been moving to having smaller councils to reduce costs for ratepayers.
- The Local Government Panel Report proposed:
  - For a population of up to 5,000 – five councillors (including the President) is too small
    - There are only 3 others plus President and Vice President.

### PROPOSED REFORMS

**COMMENTS**

- A minimum of 7 is a more appropriate number, but it should be left at the discretion of Council, or at least allow individual Councils to make individual submissions.
  - Suggest making the limits based around bands as opposed to population.
  - Ie Band 4: 5 – 9 Councillors at the discretion of Council.

#### 4.6 No Wards for Small Councils (Band 3 and 4 Councils only)

- A local government can make an application to be divided into wards, with councillors elected to those wards.
- Only about 10% of band 3 and 4 local governments currently have wards.

- It is proposed that the use of wards for councils in bands 3 and 4 is abolished.
- Wards increase the complexity of elections, as this requires multiple versions of ballot papers to be prepared for a local government’s election.
- In smaller local governments, the population of wards can be very small.
- These wards often have councillors elected unopposed, or elect a councillor with a very small number of votes. Some local governments have ward councillors elected with less than 50 votes.
- There has been a trend in smaller local governments looking to reduce the use of wards, with only 10 councils in bands 3 and 4 still having wards.

- Kulin Shire Council is opposed that the use of Wards for Councils in bands 3 and 4 is abolished.
- The process for reviewing Wards is complicated and cumbersome and should be streamlined to take into account and ensure specific localities are appropriately represented in individual Shires, within reason, irrespective of population.
- Wards are valuable for small councils that are often geographically isolated and spread over large areas with several towns or communities.
- Having Wards often reduces electoral issues as it streamlines

Sham leases are where a person creates a lease only to be able to vote or run as a candidate for council.  
• The City of Perth Inquiry Report identified sham leases as an issue.

4.7 Electoral Reform – Clear Lease Requirements for Candidate and Voter Eligibility

A person with a lease in a local government district is eligible to apply to vote in that district.

The City of Perth Inquiry Report identified a number of instances where dubious lease arrangements put to question the validity of candidates in local government elections, and subsequently their legitimacy as councillors.

5.2.1 - Mayor or President Role
- It is proposed to amend the Act to specify the roles and responsibilities of the Mayor or President.
- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the Mayor or President is responsible for:
  - Representing and speaking on behalf of the whole council and the local government, at all times being consistent with the resolutions of council
  - Facilitating the democratic decision-making of council by presiding at council meetings in accordance with the Act
  - Developing and maintaining professional working relationships between councillors and the CEO
  - Performing civic and ceremonial duties on behalf of the local government
  - Working effectively with the CEO and councillors in overseeing the delivery of the services, operations, initiatives and functions of the local government.

5.2.2 - Council Role
- It is proposed to amend the Act to specify the roles and responsibilities of the Council, which is the entity consisting of all of the councillors and led by the Mayor or President.
- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the Council is responsible for:
### CURRENT REQUIREMENTS

- Making significant decisions and determining policies through democratic deliberation at council meetings
- Ensuring the local government is adequately resourced to deliver the local government's operations, services and functions - including all functions that support informed decision-making by council
- Providing a safe working environment for the CEO;
- Providing strategic direction to the CEO;
- Monitoring and reviewing the performance of the local government.

### PROPOSED REFORMS

- **5.2.3 - Elected Member (Councillor) Role**
  - It is proposed to amend the Act to specify the roles and responsibilities of all elected councillors.
  - While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that every elected councillor is responsible for:
    - Considering and representing, fairly and without bias, the current and future interests of all people who live, work and visit the district (including for councillors elected for a particular ward)
    - Positively and fairly contribute and apply their knowledge, skill, and judgement to the democratic decision-making process of council
    - Applying relevant law and policy in contributing to the decision-making of the council
    - Engaging in the effective forward planning and review of the local governments' resources, and the performance of its operations, services, and functions

**5.2.4 - CEO Role**

- The *Local Government Act 1995* requires local governments to employ a CEO to run the local government administration and implement the decisions of council.
- To provide greater clarity, it is proposed to amend the Act to specify the roles and responsibilities of all local government CEOs.
- While input and consultation will inform precise wording, it is proposed that the Act is amended to generally outline that the CEO of a local government is responsible for:
  - Coordinating the professional advice and assistance necessary for all elected members to enable the council to perform its decision-making functions
  - Facilitating the implementation of council decisions
  - Ensuring functions and decisions lawfully delegated by council are managed prudently on behalf of the council

### 5.3 Council Communication Agreements

- The Act provides that council and committee members can have access to any information held by the local government that is relevant to the performance of the member in their functions.
- The availability of information is sometimes a source of conflict within local governments.
- In State Government, there are written Communication Agreements between Ministers and agencies that set standards for how information and advice will be provided.
- It is proposed that local governments will need to have Council Communications Agreements between the council and the CEO.
- These Council Communication Agreements would clearly specify the information that is to be provided to councillors, how it will be provided, and the timeframes for when it will be provided.
- A template would be published by DLGSC. This default template will come into force if a council and CEO do not make a specific other agreement within a certain timeframe following any election.
- The template published by DLGSC, would need to be clear, simple, consistent and practical with input from the sector.
- In individual LGs have their own agreements this could be complicated, either have a standard template or don't enforce it.

### 5.4 Local Governments May Pay Superannuation Contributions for Elected Members

- Elected members are eligible to receive sitting fees or an annual allowance.
- Superannuation is not paid to elected members. However, councillors can currently divert part of their allowances to a superannuation fund.
- Councils should be reflective and representative of the people living within the district. Local governments should be empowered to remove any barriers to the participation of gender and age diverse people on councils.
- It is proposed that local governments should be able to decide, through a vote of council, to pay superannuation contributions for elected members. These contributions would be additional to existing allowances.
- Superannuation is widely recognised as an important entitlement to provide long term financial security.
- Other states have already moved to allow councils to make superannuation contributions for councillors.
- Allowing council to provide superannuation is important part of encouraging equality for people represented on council – particularly for women and younger people.
- Paying Superannuation may provide a conflicting message to Councillors who believe undertaking such a role requires them to be more hands on and they become overly involved in “operational” matters. Administration is already paid to undertake this role not Councillors.

### 5.5 Local Governments May Establish Education Allowances

- Local government elected members must complete mandatory training.
- There is no specific allowance for undertaking further education.
- Local governments will have the option of contributing to the education expenses for councillors, up to a defined maximum value, for tuition costs for further education that is directly related to their role on council.
- Councils will be able to decide on a policy for education expenses, up to a maximum yearly value for each councillor. Councils may also decide not to make this entitlement available to elected members.
- Any allowance would only be able to be used for tuition fees for courses, such as training programs, diplomas, and university studies, which relate to local government.
- Where it is made available, this allowance will help councillors further develop skills to assist with making informed decisions on important questions before council, and also provide professional development opportunities for councillors.
- Currently there is both

- Separating WALGA out of the Act will provide clarity that WALGA is not a State Government entity.

### 5.8 CEO Recruitment
- Recent amendments introduced provisions to standardise CEO recruitment.
  - The recruitment of a CEO is a very important decision by a local government.
- It is proposed that DLGSC establishes a panel of approved panel members to perform the role of the independent person on CEO recruitment panels.
  - Councils will be able to select an independent person from the approved list.
  - Councils will still be able to appoint people outside of the panel with the approval of the Inspector.
- Councils should be able to individually select an independent person suitable to their local community’s needs that is not necessarily from the approved list.

### 6.3 Rates and Revenue Policy

- Local governments are not required to have a rates and revenue policy.
- Some councils defer rate rises, resulting in the eventual need to drastically raise rates to cover unavoidable costs – especially for the repair of infrastructure.
- The Rates and Revenue Policy is proposed to increase transparency for ratepayers by linking rates to basic operating costs and the minimum costs for maintaining essential infrastructure.
- A Rates and Revenue Policy would be required to provide ratepayers with a forecast of future costs of providing local government services.
- The Policy would need to reflect the Asset Management Plan and the Long Term Financial Plan (see item 6.2), providing a forecast of what rates would need to be, to cover unavoidable costs.
- A template would be published for use or adaption by all local governments.
- Again a template would be published for use or adaption by all local governments would need to be simple, concise and practical.

### 6.7 Building Upgrade Finance

- The local government sector has sought reforms that would enable local governments to provide loans to property owners to finance for building improvements.
- This is not currently provided for under the Act.
- The Local Government Panel Report included this recommendation.

- Reforms would allow local governments to provide loans to third parties for specific building improvements - such as cladding, heritage and green energy fixtures.
- This would allow local governments to lend funds to improve buildings within their district.
- Limits and checks and balances would be established to ensure that financial risks are proactively managed.

- Reforms should only allow local governments to provide loans to community groups / not for profit third parties for specific building improvements within their district.

### 6.8 Cost of Waste Service to be Specified on Rates Notices

- No requirement for separation of waste changes on rates notice.
- Disclosure will increase ratepayer awareness of waste costs.
- The Review Panel Report included this recommendation.

- It is proposed that waste charges are required to be separately shown on rate notices (for all properties which receive a waste service).
- This would provide transparency and awareness of costs for ratepayers.

- Kulin Shire Council already show waste charges separately shown on rate notices (for all properties which receive a waste service).
