Transitioning Pet Shops to Adoption Centres

2. Would you purchase a behaviour and health checked rescue dog from a pet shop?

Yes.

3. What background information would you want on the rescue dog?

If the Q2 has been followed accurately, nothing else should be required. Often little is known about them anyway.

4. Do you think transitioning pet shops to adoption centres is beneficial?

Yes.

5. If you are a pet shop owner or operator, what impact will this have on your business?

N/A

Mandatory dog de-sexing for non-breeding dogs

6. How do you feel about mandatory dog de-sexing for non-breeding dogs?

100% necessary.

7. Exemptions from mandatory de-sexing will apply for health and welfare reasons as assessed by a veterinarian, and if the dog owner is a registered breeder. Are there any other reasons why a dog should be exempt from being de-sexed?

Absolutely NOT.

8. Should mandatory dog de-sexing apply to all dogs, including existing dogs, or just dogs born after a particular date?

All dogs.

Centralised Registration System

9. How will a centralised registration system benefit you?

Don't know.

10. Do you think it is reasonable to increase dog registration fees for dogs that are not de-sexed to encourage de-sexing?

Yes

Unsure

No

11. Do you support increasing dog registration fees to fund a streamlined centralised registration system and to fund enforcement activities?

To fund enforcement activities - Yes.

12. Do you think it is reasonable for dog breeders to pay an annual registration fee to cover the cost of monitoring and enforcing dog breeder compliance?

Definitely yes.

13. Are there any other benefits, costs and/or issues associated with breeder registration that are not captured in this table? Please detail.

14. Should there be any restrictions on who can register as a dog breeder? If so, what should these be?

Absolutely. Vet references,
suitability of property.
No suburban back yard breeders
- 99% purely for financial gain.

15. Do you think local government is best placed to enforce dog breeder registration? Why, or why not?

- No - needs to be consistent
across the board and strict.

Mandatory Standards for Dog Breeding, Housing, Husbandry, Transport and Sale

16. Should people who breed dogs have to comply with minimum standards for the health and welfare of their dogs?

Yes

Unsure

No

There should be a much more rigid word than minimum.

17. Should there be any restrictions on who can register as a dog breeder? If so, what should these be?

Yes. Past record of pet ownership. Vet reference. Home/property checks. Reasons - usually to make money.

18. Should the number of litters that a bitch can produce be restricted by law?

Yes

Unsure

No

Number and time frame between litters.

19. Should people who breed dogs for commercial gain be required to meet additional Mandatory Dog Breeding Standards?

Need to be gradually wiped out - no new ones permitted.

20. If you said 'yes' to question 19, should this be based on:

(a) keeping a defined number of breeding dogs?

(b) if so, what number?

(c) any other criteria?

age & condition of dogs.
Spot checks by authorities.
You would see some horrors!

Please provide reasons:

Under truly responsible restrictions the dog problem (actually a people problem) could be resolved within a decade. It's time the voiceless creatures no longer have to suffer for the material gains of humans.
