Hello,

I have filled in your survey, but just wanted to add that I completely support changes to the law to stop puppy farming.

I agree with the RSPCA on changes to the law in this respect, and with the proposed regulations:

- Transitioning pet shops to adoption centres to stop puppies being sourced from puppy farms.
- Mandatory desexing for non-breeding dogs to stop indiscriminate breeding.
- A centralised registration system to ensure all dogs can be traced back to the breeder.
- Animal welfare standards for dogs to outline a minimum level of care.

I would also like to see some kind of background check on the people who want to adopt the dogs, to make sure they are suitable owners.

Kind regards,
Jackie Curtis
