My name is: Marion Watson, I am a member of Dogswest with a Breeders prefix.

Membership Number: [REDACTED]

Breeders Prefix: [REDACTED]

I BREED BEAGLES

Tel: No [REDACTED]

I Have been Breeding and showing dogs for over 50 years.

No pets, rescue or otherwise should be sold in Pet Shops!! Staff have no experience of the different breeds. NO PETS IN PET SHOPS!! Leave them to supply food and other items related to dogs

NO MANDATORY DE SEXING OF DOGS! Certainly encourage desexing of pets but it is wrong to force people to do so.

COUNCILS ALREADY KNOW WHERE BREEDERS ARE AS THEY ARE REGISTERED IF THEY ARE REPUTABLE!. They are NOT the problem. How can Council monitor the unregistered dogs??? Almost impossible

DOGSWEST MEMBERS ALREADY COMPLY AND ABIDE WITH A CODE OF ETHICS. WHAT ABOUT THE GUY DOWN THE STREET WHOSE DOG HAS A LITTER OF PUPPIES AND THEY GET DUMPED???

See West Australian Page 18 of 19th July 2018. How can a Council or government authority monitor that??

This whole issue is being organized by folk who have no idea what they are talking about.

There are already laws in place and they are NOT being implemented - How can anything further be implemented???

Leave responsible Breeders alone and concentrate on catching the guy who sells puppies at the local market or off the back of a ute some weekend!! What health checks have these puppies had? What temperament checks? What Breed characteristics can they offer new owners??

HOW ARE YOU GOING TO STOP PUPPY FARMERS IF YOU HAVE BEEN UNABLE TO WITH EXISTING LAWS??

You are welcome to inspect my premises.. The local government does an Annual inspection before renewing my licence to breed and keep dogs. This ensures adequate space and hygiene is being adhered to.

Different Breeds have different Needs!! You cannot rule for a Chihuahua the same as a Great Dane!!

What happened to plain common snese??

Yours respectively
