Transitioning Pet Shops to Adoption Centres

2. Would you purchase a behaviour and health checked rescue dog from a pet shop?

N/A

3. What background information would you want on the rescue dog?

N/A

4. Do you think transitioning pet shops to adoption centres is beneficial?

Yes

5. If you are a pet shop owner or operator, what impact will this have on your business?

N/A

Mandatory dog de-sexing for non-breeding dogs

6. How do you feel about mandatory dog de-sexing for non-breeding dogs?

This is a common sense approach that has already been adopted with cats. More resources for education and enforcement will be required.

7. Exemptions from mandatory de-sexing will apply for health and welfare reasons as assessed by a veterinarian, and if the dog owner is a registered breeder. Are there any other reasons why a dog should be exempt from being de-sexed?

Nil

8. Should mandatory dog de-sexing apply to all dogs, including existing dogs, or just dogs born after a particular date?

All dogs.

Centralised Registration System

9. How will a centralised registration system benefit you?

The centralised registration system will allow the shire to see more easily if dogs are registered in the state. This will make it quicker and easier to deal with unregistered dogs.

10. Do you think it is reasonable to increase dog registration fees for dogs that are not de-sexed to encourage de-sexing?

Yes

Unsure

No

11. Do you support increasing dog registration fees to fund a streamlined centralised registration system and to fund enforcement activities?

Yes. This is essential. The low fees currently received by local governments already shift the burden from dog owner to all ratepayers.

12. Do you think it is reasonable for dog breeders to pay an annual registration fee to cover the cost of monitoring and enforcing dog breeder compliance?

Yes. The derive the benefit for being a breeder and ratepayers should not fund all of this benefit.

13. Are there any other benefits, costs and/or issues associated with breeder registration that are not captured in this table? Please detail.

[Click here to enter text.]

14. Should there be any restrictions on who can register as a dog breeder? If so, what should these be?

[Click here to enter text.]

15. Do you think local government is best placed to enforce dog breeder registration? Why, or why not?

Yes. There is not enough of a State Government presence in the regional areas to enforce dog breeder registration. There are already many holes in regional service provision from the state government.

Mandatory Standards for Dog Breeding, Housing, Husbandry, Transport and Sale

16. Should people who breed dogs have to comply with minimum standards for the health and welfare of their dogs?

Yes

Unsure

No

17. Should there be any restrictions on who can register as a dog breeder? If so, what should these be?

[Click here to enter text.]

18. Should the number of litters that a bitch can produce be restricted by law?

Yes

Unsure

No

19. Should people who breed dogs for commercial gain be required to meet additional Mandatory Dog Breeding Standards?

Yes.

20. If you said 'yes' to question 19, should this be based on:

- a) **keeping a defined number of breeding dogs?**
- b) if so, what number?
- c) any other criteria?

Please provide reasons:

Greater than two dogs.

* Attach further documentation if required.
