### **Introduction**

- 1 This is an application by Venueslive Management Services (WA) Pty Ltd (the applicant) for the conditional grant of a tavern restricted licence for premises to be known as Optus Stadium and located at Victoria Park Drive, Burswood. The application is made pursuant to ss 41, 62 and 68 of the *Liquor Control Act 1988* (the Act).
- 2 Pursuant to s 69 of the Act, the Chief Health Officer (CHO) and the Commissioner of Police (the Commissioner) lodged notices of intervention. The purpose of each intervention was to highlight the risks associated with the operation of a large venue of this nature and how those risks could be mitigated.
- 3 The application will be determined on the written submissions of the parties, as permitted under ss 13 and 16 of the Act. Further, this decision has been prepared, and should be read, in the context of a high-volume liquor jurisdiction which is to act as speedily and with as little formality and technicality as is practicable.<sup>1</sup>

### **Legislative and legal framework**

- 4 In determining this application, I have been guided by the following legal principles.
- 5 An applicant for the grant of a licence must satisfy the licensing authority that the grant of the application is in the public interest.<sup>2</sup> An applicant must therefore adduce sufficient evidence to discharge this burden.

---

<sup>1</sup> Refer s 16(7) of the Act.

<sup>2</sup> Refer s 38(2) of the Act.

- 6 In determining whether the grant of an application is 'in the public interest' I am required to exercise a discretionary value judgment confined only by the scope and purpose of the Act.<sup>3</sup>
- 7 An intervenor carries no onus to establish their assertions of fact or opinion.<sup>4</sup>
- 8 The factual matters which I am bound to consider when determining whether the grant of an application is 'in the public interest' are those relevant to the primary and secondary objects of the Act as set out in s 5.<sup>5</sup>
- 9 The primary objects of the Act are:
- to regulate the sale, supply and consumption of liquor;
  - to minimise harm caused to people, or any group of people, due to the use of liquor; and
  - to cater for the requirements of consumers for liquor and related services, with regard to the proper development of the liquor industry, the tourism industry and other hospitality industries in the State.
- 10 The secondary objects of the Act are:
- to facilitate the use and development of licensed facilities, including their use and development for the performance of live original music, reflecting the diversity of the requirements of consumers in the State;
  - to provide adequate controls over, and over the persons directly or indirectly involved in, the sale, disposal and consumption of liquor; and
  - to provide a flexible system, with as little formality or technicality as may be practicable, for the administration of this Act.
- 11 The licensing authority is also entitled (but not bound) to consider the factual matters set out in s 38(4) of the Act as part of the public interest considerations.<sup>6</sup>
- 12 In the conduct of proceedings under the Act, the licensing authority is to act according to equity, good conscience and the substantial merits of the case. The licensing authority should also act without undue formality, is not bound by the rules of evidence and makes its determination on the balance of probabilities.<sup>7</sup>
- 13 Where conflict arises in promoting the objects of the Act, the licensing authority must weigh and balance the competing interests in each case.<sup>8</sup> However, it is a matter for the

- 14 Section 33(1) provides that the licensing authority has an absolute discretion to grant or refuse an application on any ground, or for any reason, that the licensing authority considers in the public interest.

### Determination

- 15 The applicant lodged a detailed Public Interest Assessment (PIA) in support of its application. I have read the applicant's PIA and it is not necessary to refer to that evidence in detail, other than to make the following observations from that material:

- the Stadium will be a state of the art, multi-purpose venue that will be able to host a range of sporting and entertainment events, together with providing general hospitality and function facilities. It will introduce a new level of experience in sports viewing and entertainment to Perth, and Western Australia. Once completed, it will be the largest sporting and entertainment venue in WA and the third largest international sporting venue in Australia;
- featuring innovative design, the latest technology and a level of functionality, services, finishes and fit-out equivalent to the world's best practice, the Stadium will help foster and enhance Perth's reputation as a world class destination;
- located on the Burswood Peninsula, the Stadium is a landmark development which will act as a gateway to the City of Perth; and
- the new Stadium represents a significant investment on behalf of the State.

- 16 In my view, the applicant's evidence clearly establishes that the grant of the application will cater to the requirements of consumers for liquor and related services in accordance with object 5(1)(c) of the Act and will also facilitate the use and development of licensed facilities reflecting the diversity of the requirements of consumers (object 5(2)(a)). The grant of the application will also promote the tourism industry in the State.

- 17 I therefore find that the applicant has discharged its onus under s 38(2) of the Act and the grant of the application is in the public interest.

- 18 Consequently, a tavern restricted licence is conditionally granted to the applicant subject to the following:

- (a) a Certificate under s 39 of the Act being lodged before the operation of the licence;
- (b) compliance with the *Local Government Act 1995*, *Health (Miscellaneous Provisions) Act 1911* and any written law relating to the sewerage and drainage of these premises;
- (c) all work being completed within 12 months in accordance with the plans and specifications dated 6 June 2017;
- (d) the recommendations of the Inspector of Licensed Premises on the Schedule of Requirements being satisfactorily completed and the Director of Liquor Licensing

- being notified in writing at least 21 days prior to applicant wishing to trade under the licence;
- (e) a final inspection by an Inspector of Licensed Premises being conducted to ensure that all requirements have been satisfactorily completed; and
  - (f) the applicant seeking confirmation of the grant on or before 21 November 2018 (12 months from the date of the decision) pursuant to s 62(4)(c) of the Act.
- 19 The next issue to determine is the trading conditions for the licence, which will contribute to ensuring the licensed premises is well managed in accordance with the Act and public expectations. Object 5(1)(b) of the Act is directed towards the minimisation of alcohol-related harm in the community, however it should be observed that this is not about preventing harm absolutely.<sup>10</sup> Nonetheless, it was submitted by the intervenors that appropriate trading conditions are an important harm minimisation consideration.
- 20 The applicant submitted that it will adopt a risk based approach to events (and functions) to be conducted at the Stadium. The applicant will undertake an Event Specific Risk Assessment which will incorporate a review of factors such as the nature of the event, the patron demographic, their behaviour profile and other relevant factors. An Event Alcohol Management Plan (EAMP) will then be prepared and provided to the WA Police for consultation purposes. The EAMP will outline how the sale and supply of liquor will be managed for each event and will include details such as opening and closing times for each area, cup limits to apply, the types of liquor products to be available, staffing and security requirements and any other relevant information. The applicant's proposed approach to the provision of alcohol at Optus Stadium is based on its (via a related entity) proven and demonstrated track record of operating ANZ Stadium in Sydney, a licensed premise similar in nature and magnitude to Optus Stadium. If the applicant and the Police cannot agree on the EAMP, the matter will be referred to the Director of Liquor Licensing for determination.
- 21 In this regard, and as part of this risk based approach, the applicant has indicated that it intends to only provide low strength liquor (3.5% ethanol or less) within the general admission area of the venue for most sporting events and liquor will only be available 90 minutes before the commencement of an event until 60 minutes after the event. In other areas of the facility or during such occasions when full strength liquor is available, appropriate management strategies and harm minimisation initiatives, reflected in an EAMP, will be put in place to monitor patron behaviour and levels of intoxication, similar to what has been adopted at ANZ Stadium.
- 22 The new Stadium will be a multi-faceted facility providing food and beverage options throughout the day whilst also catering to large sporting events and concerts as well as large and small functions. While I accept that the licence for the venue needs to be suitably flexible to maximise the potential of the venue as a major facility in the State and cater to public requirements, this must be balanced with the harm minimisation object of the Act. However, I am also mindful of the applicant's experience in managing

ANZ Stadium in Sydney and its comprehensive risk based approach to the management of the venue.
